Epson Stylus® NX420 Series Start Here

Read these instructions before using your product.

Power cord

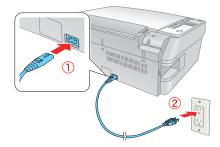

Caution: Do not open ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability.

Remove all protective materials.

2 Turn on

1 Connect the power cable.

Caution: Do not connect to your computer yet.

2 Press the 🖒 On button.

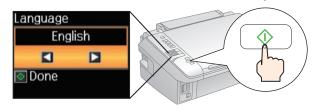

3 Select language

To select **English** as your language, press **Start**.

Note: If you want to change the language, press ◀ or ▶ to select it, then press 〈 Start.

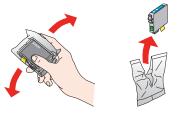

4 Install ink cartridges

Note: Do not load paper yet.

1 Lift up the scanner, then open the cartridge cover.

2 Shake the ink cartridges gently 4 or 5 times, then unpack them.

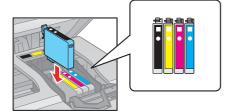

3 Remove only the yellow tape from each cartridge.

Caution: Don't remove any other seals or the cartridges may leak.

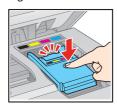

4 Insert the cartridges in the holder for each color.

5 Press each cartridge down until it clicks.

6 Close the cartridge cover. Press down until it clicks.

- 7 Lower the scanner.
- 8 Press the Start button to charge the ink.

Priming takes about 2 minutes.

Note: Your printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer.

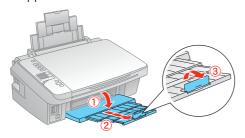

Caution: Don't turn off the printer while it is priming or you'll waste ink.

5 Load paper

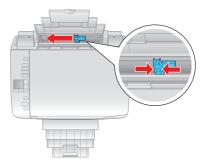

1 Open the paper support and pull up the extensions.

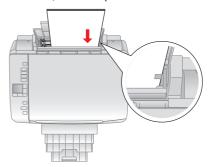

2 Open the output tray, pull out the extensions, and raise the stopper.

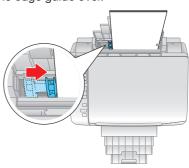

3 Squeeze the edge guide as you slide it all the way to the left.

4 Load letter or A4-size paper against the right edge and behind the tab, with the printable side face up.

5 Slide the edge guide over.

Continue with section 6 to choose your connection type.

Choose your connection

You can connect your printer to your existing network wirelessly or directly to your computer using a USB cable (not included). See below for details on each connection method.

Wireless Connection

You will need to install the software on every computer that will print to the printer. Temporary use of a USB cable (not included) is recommended for the first installation only. After the printer is connected to the network, you will be prompted to remove the USB cable.

If you're using Mac OS® X 10.6 or don't have a USB cable, you can use the buttons on the printer to select wireless settings instead.

Make sure you know your network name (SSID) and network password:

- Network name_____
- Network password__

If you don't have this information, contact the person who set up your network.

Direct USB Connection

Make sure you have a USB cable (not included). Do not connect the printer to your computer until you're instructed to do so.

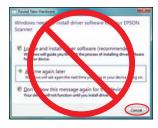

Install software

Make sure the printer is **NOT CONNECTED** to your computer.

Windows: If you see a Found New Hardware screen, click **Cancel** and disconnect the USB cable. You can't install your software that way.

Insert the NX420 Series software CD.

Windows: If you see the AutoPlay window, click **Run Setup.exe.** If you see the User Account Control screen, click **Yes** or **Continue**.

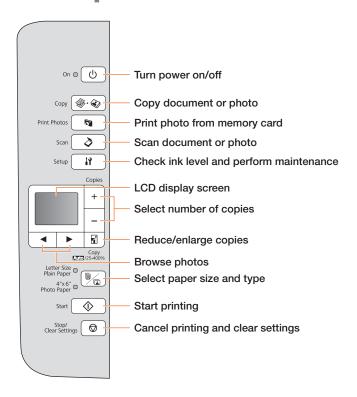

Macintosh®: Double-click the

3 Click Install and follow the on-screen instructions.

Control panel overview

Any problems?

If you experience problems during setup, see below:

Network setup was unsuccessful.

- Make sure you select the right network name.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. If it has uppercase (ABC) or lowercase (abc) letters, make sure you enter them correctly.

Press to select upper-case letters (ABC), lower-case letters (abc), or numbers and symbols (123).

Press + or - to enter characters.

Press to move to the next character.

Press ◀ to delete.

Press the **Start** button when you're finished entering your password.

 If you see a firewall alert message, click Unblock or Allow to let setup continue.

You see error messages on the printer's LCD display screen.

See your Quick Guide for troubleshooting information.

Setup is unable to find my printer after connecting it with a USB cable.

Make sure it is securely connected as shown:
