

With 7-color UltraChrome™ inks, 2880 x 1440 dpi resolution, and ultra-fine 4-picoliter ink droplets, the large-format EPSON Stylus® Photo 2200 delivers remarkable archival photos that last up to 75 years. It even offers true borderless photo printing in six popular sizes, plus PRINT Image Matching™ technology for the best quality photos from PRINT Image Matching-enabled digital cameras.

The first desktop photo printer to use seven pigment inks, the EPSON Stylus Photo 2200 provides the highest quality output available from any pigment-based ink jet. And, with its innovative ink system design, complete with individual ink cartridges, it ensures the deepest, darkest blacks for prints and enlargements on both glossy and matte paper. By exchanging the Photo Black ink and optional Matte Black ink cartridges, users can optimize their black ink coverage based on the corresponding paper.

Perfect for portrait or fine art photographers who need archival images, this high-speed ink jet makes it easy for anyone to create long-lasting photos and artwork on a variety of media up to 13" x 44". A power-packed performer, the EPSON Stylus Photo 2200 comes with an easy-to-use roll paper holder and automatic cutter for a quick, simple way to create borderless 4" x 6" photos. It also includes high-speed USB and FireWire® IEEE 1394 connectivity, and a convenient Parallel port.
