Read these instructions before using your product.

Unpack
1  Make sure you have these items:

   - Your printer
   - Power cable
   - Ink cartridges
   - CDs or DVDs
   - Accessory box

Note: Do not open ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability.

2  Remove all the packaging materials and tape.

3  Open the top cover and remove any tape inside.

4  Open the front cover and remove the transportation locks.

   Tip: Keep the transportation locks in the accessories box. You can also use the accessories box to store your printer manual and spare ink cartridges.

   Note: Don’t turn off the printer while it is priming or you’ll waste ink.

5  Connect the power cable.

Caution: Do not connect to your computer yet.

6  Press the power button and adjust the control panel.

3  Select your language.

Install ink cartridges
1  Open the printer cover, then open the ink cartridge cover.

2  Shake the ink cartridges gently 4 or 5 times, then unpack them.

3  Remove only the yellow tape from each cartridge.

Caution: Don’t remove any other seals or the cartridges may leak.

4  Insert the cartridges in the holder for each color.

5  Press the cartridges down until they click.

6  Close the cartridge cover, then close the printer cover.

7  The printer begins priming the ink delivery system. This takes about 10 minutes. Do not turn off the printer, load paper, or open any covers until the process is complete.

   Note:
   - The printer is designed for use with Epson® cartridges only, not third-party cartridges or ink.
   - The cartridges included with the printer are designed for printer setup and not for resale. After some ink is used for priming, the rest is available for printing.

Caution: Don’t turn off the printer while it is priming or you’ll waste ink.

Load paper

Sheet feeder
You can load plain paper, and most glossy and matte papers, in the sheet feeder.

1  Open the paper support and pull up the extensions.

2  Open the front cover, then extend the output tray.

3  Load paper against the right edge and behind the tab. Then press the button on the edge guide and slide it to the edge of the paper.

   Note: Don’t load the paper sideways. Always load it short edge first.

Front manual feed tray
You can print on these fine art media using the front manual feed tray:

- Epson® Velvet Fine Art Paper
- Epson Watercolor Paper Radiant White
- Epson Exhibition Watercolor Paper Textured
- Epson® UltraSmooth® Fine Art Paper
- Epson Exhibition Fiber Paper
- Epson Hot Press Bright
- Epson Hot Press Natural
- Epson Cold Press Bright
- Epson Cold Press Natural

   Note: For instructions on loading roll paper, a CD or DVD, or thick media, use the Basics guide.

Install Software

Note: If your computer does not have a CD/DVD drive or you are using a Mac, an Internet connection is required to obtain the printer software.

1. Make sure the printer is NOT CONNECTED to your computer.
   - Windows: If you see a Found New Hardware screen, click Cancel and disconnect the USB cable.

2. Insert the product CD or download and run your product’s software package:
   - epson.com/support/p600 (U.S.)
   - epson.ca/support/p600 (Canada)

3. Follow the instructions on the screen to run the setup program.
   - OS X: Make sure you install Software Updater to receive firmware and software updates for your product.

4. When you see the Select Your Connection screen, select one of the following:
   - Wireless connection
     - In most cases, the software installer automatically attempts to set up your wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password.
   - Direct USB connection
     - Make sure you have a USB cable (not included).
   - Wired network connection
     - Make sure you have an Ethernet cable (not included).

Mobile printing

To print from a mobile device, your product must be set up for wireless printing or Wi-Fi Direct. See the online User’s Guide for instructions.

- iOS/Android™
  - epson.com/print
  - epson.com/connect

Any problems?

Network setup was unsuccessful.

- Make sure you select the right network name (SSID).
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Passwords must be entered in the correct case.

The printer’s screen is dark.

Make sure your product is turned on and press any button or touch the screen to wake it from sleep mode.

Setup is unable to find my printer after connecting it with a USB cable.

Make sure it is securely connected as shown.
