Quick Setup

Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Connect the projector

Choose from the following connections. See the sections below or the online User’s Guide for details.

Video device

Connect multiple video devices and use the Source Search button on the projector or the remote control to switch between them.

PowerLite Home Cinema 640/740HD

Connect one end of an HDMI cable to the projector’s HDMI port and the other end to an HDMI port on your computer.

External speakers

Connect your device’s audio output to your home theater receiver or powered speakers.

Note: The internal speaker is disabled when an external device is connected.

If you are using an HDMI connection to the projector, you may need to reduce the projector speaker volume to zero (0), or make sure that the correct audio output is selected on your device.

Home theater system

Connect audio

Built-in speaker

The projector has a built-in speaker that can play audio from a video source (DVD player, streaming device, etc.) connected by an HDMI cable. If you do not use an HDMI connection, you must connect your device’s audio output to the projector’s audio input.

PowerLite Home Cinema 640/740HD

Use the arrow buttons on the remote control to highlight any options on the Home screen, then press to select it. You can switch between projection sources and quickly access various adjustment options from this screen.

Adjust the image

1. If you don’t see an image, press the Source Search button on the projector or the remote control to select the image source.

Note: If you still see a blank screen or have other display problems, see the tips in “Troubleshooting” on the back of this sheet.

2. To raise the image, press the foot release button and lift the front of the projector. Release the button to lock the foot in position.

3. Open the AV Mute slide all the way.

4. Press the power button. The projector beeps, the Status light flashes blue, and then stays on.

Note: To shut down the projector, press the power button twice, then unplug it. You don’t have to wait for the projector to cool down.

5. Use the arrow buttons on the remote control to highlight any options on the Home screen, then press to select it. You can switch between projection sources and quickly access various adjustment options from this screen.

6. The default language of the menu system is English. To select another language, press the Menu button on the projector or the remote control. Select Language and press . Select your language and press . Press the Menu button to exit the menu system.

Using the remote control

Make sure the batteries are installed as shown (two AA batteries).

Press the button on the projector or the remote control to select the image source.

If you still see a blank screen or have other display problems, see the tips in “Troubleshooting” on the back of this sheet.

Note: If you still see a blank screen or have other display problems, see the tips in “Troubleshooting” on the back of this sheet.

Quick Setup
Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Connect the projector
Choose from the following connections. See the sections below or the online User’s Guide for details.

Video device
Connect multiple video devices and use the Source Search button on the projector or the remote control to switch between them.

PowerLite Home Cinema 640/740HD

PowerLite Home Cinema 1040

Computer
Connect one end of an HDMI cable to the projector’s HDMI port and the other end to an HDMI port on your computer.

Note: For more information on connecting the projector to your computer or other devices (camera, USB flash drive, etc.), see the online User’s Guide.

Mobile media device (PowerLite Home Cinema 1040)
Connect tablets, smartphones, and other devices that support the MHL™ standard to the HDMI/MHL port.

Some devices may require an adapter or may not require an MHL cable. Not all features or functions may be supported. Check your device’s documentation for more information.

Connect audio

Built-in speaker
The projector has a built-in speaker that can play audio from a video source (DVD player, streaming device, etc.) connected by an HDMI cable. If you do not use an HDMI connection, you must connect your device’s audio output to the projector’s audio input.

PowerLite Home Cinema 640/740HD

PowerLite Home Cinema 1040

External speakers
Connect your device’s audio output to your home theater receiver or powered speakers.

Note: The internal speaker is disabled when an external device is connected. If you are using an HDMI connection to the projector, you may need to reduce the projector speaker volume to zero (0), or make sure that the correct audio output is selected on your device.

Home theater system

Powered speakers
Some devices require an adapter or may not require an MHL cable. Not all features or functions may be supported. Check your device’s documentation for more information.

Turn on your equipment

1. Turn on your video source or computer.
2. Plug in the projector. The power light on the projector turns blue.

3. Open the AV Mute slide all the way.

4. Press the Power button. The projector beeps, the Status light flashes blue, and then stays on.

5. Use the arrow buttons on the remote control to highlight any options on the Home screen, then press Enter to select it. You can switch between projection sources and quickly access various adjustment options from this screen.

6. The default language of the menu system is English. To select another language, press the Language button on the projector or the remote control. Select Language and press Enter. Select your language and press Enter. Press the Menu button to exit the menu system.

Adjust the image

1. If you don’t see an image, press the Source Search button on the projector or the remote control to select this image source.

Note: If you still see a blank screen or have other display problems, see the tips in “Troubleshooting” on the back of this sheet.

2. To raise the image, press the foot release button and lift the front of the projector. Release the button to lock the foot in position.

3. PowerLite 640: To reduce or enlarge the image, turn the zoom ring.

PowerLite 740HD/1040: To reduce or enlarge the image, press the T (reduce) or W (enlarge) buttons on the projector.

4. Turn the focus ring to sharpen the image.

5. If your image looks like or , you’ve placed the projector off to one side of the screen at an angle. Place the projector directly in front of the center of the screen, facing the screen squarely. If you can’t move the projector, use the horizontal keystone slider on the projector to correct the image.

6. Your projector automatically adjusts images that look like or , but if necessary you can press the + or - buttons on the projector to correct this.

Using the remote control
Make sure the batteries are installed as shown (two AA batteries).

1. Make sure the batteries are installed as shown (two AA batteries).
2. Turn projector on and off.
3. Access projector menus.
4. Choose which source to display.
5. Access the Home screen.
7. Turn off projector display.
8. For more information on using the remote control, see the online User’s Guide.
Troubleshooting

If you see a blank screen or the No signal message after turning on your computer or video device, check the following:

- Make sure the Status light on the projector is blue and not flashing, and the A/V Mute slide is open.
- Press the Source Search button on the projector or the remote control to switch to the correct image source, if necessary.
- Press the Home button on the projector or the remote control to verify source input and settings.
- If you’re using a Windows® laptop, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/ LCD or have an icon such as . You may have to hold down the key while pressing it (such as Fn+F7). Wait a moment for the display to appear.
- If you’re using a Mac laptop, open System Preferences and select Displays. Click the Arrangement tab and select the Mirror Displays checkbox.

Where to get help

Manual
For more information about using the projector, click the icon on your desktop to access the online manual (requires an Internet connection). If you don’t have a User’s Guide icon, you can install it from the projector CD or go to the Epson website, as described below.

Telephone support services
To use the Epson PrivateLine® Support service, call (800) 637-7661. This service is available for the duration of your warranty period. You may also speak with a support specialist by calling (562) 981-3840 (U.S.) or (905) 709-3839 (Canada).

Support hours are 6 a.m. to 8 p.m., Pacific Time, Monday through Friday, and 7 a.m. to 4 p.m., Pacific Time, Saturday.

Days and hours of support are subject to change without notice. Toll or long distance charges may apply.

Internet support
Visit epson.com/support (U.S.) or epson.ca/support (Canada) for solutions to common problems. You can download drivers and documentation, get FAQs and troubleshooting advice, or e-mail Epson.

Registration
Register today to get product updates and exclusive offers. You can use the CD included with your projector or register online at epson.com/webreg.

Notices

Declaration of Conformity
According to EC/2014/30 Part 2 and 15 of the FCC rules as a Class B digital device. Each product marketed, is identical to the representative unit tested and found to be compliant with the standards. Records maintained to continue to reflect the equipment being produced can be expected to be within the variation accepted due to quantity production and testing on a statistical basis as required by 47CFR15.10(e). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Tradename: Epson
Type of Product: LCD Projector
Model: H801A/TH1644/1772A
Marketing Name: Home Six Home Cinema 640/740HD/1040

Epson America, Inc. Limited Warranty
Two-Year Projector Limited Warranty and 90-Day Lamp Limited Warranty.

What is Covered: Epson America, Inc. ("Epson") warrants to the original retail purchaser of Epson projector products enclosed with this limited warranty statement that the product, if purchased new and operated in the United States, Canada, or Puerto Rico will be free from defects in workmanship and materials for a period of two (2) years from the date of original purchase. This limited warranty applies only to the projector and not to the projector lamp, which carries a limited warranty period of ninety (90) days from the date of original purchase. For warranty service, you must provide proof of the date of original purchase.

What Epson Will Do: To Correct Problems: If your product requires service during the limited-warranty period, please call Epson at the number on the bottom of this statement and be prepared to provide the model, serial number, and date of original purchase. Epson will, at its option, repair or replace the defective unit, without charge for parts or labor. If Epson authorizes an exchange for the defective unit, Epson will ship a replacement product to you, freight prepaid, so long as you pay an address in the United States, Canada, or Puerto Rico. You are responsible for securely packaging the defective unit and returning it to Epson within five (5) working days of receipt of the replacement. Epson requires a debit or a credit card number to secure the cost of the replacement product in the event that you fail to return the defective one. If Epson determines that you are not entitled to an exchange, you will be refunded the purchase price for the defective unit, or Epson or its authorized service center, where the product will be repaired and sent back to you. You are responsible for paying the product and for all costs to and from the Epson authorized service center. When warranty service involves the exchange of the product or of a part, the item replaced becomes Epson property. The exchanged product or part may be new or refurbished to the Epson standard of quality, and Epson’s liability for replacement of the covered product will not exceed the original retail selling price of the covered product. Exchange or replacement products or parts assume the remaining warranty period of the product covered by this limited warranty. If Epson replaces the lamp as part of the warranty service, the replaced limited warranty lamp carries the limited 90-day warranty stated above.

What The Warranty Does Not Cover:
This warranty covers only normal use in the United States, Canada, or Puerto Rico. Excessive continual use is not considered normal use. This warranty does not cover consumables such as filters. This warranty is not transferable. Epson is not responsible for warranty service should the Epson label or logo or the rating label or serial number be removed. Epson is not responsible for warranty service should the product fail to be properly maintained or fail to function properly as a result of misuse, abuse, improper installation, neglect, improper shipping, damage caused by disasters such as fire, flood, and lightning, improper electrical current, software problems, the use of non-Epson lamps, add-in cards or cables, interaction with non-Epson products, or service other than by Epson or an Epson Authorized Service Center. Postage, Insurance, or shipping costs incurred in presenting your Epson product for warranty service are your responsibility. Epson will pay all freight charges if you choose to send your unit to Epson for repair. If a claimed defect cannot be identified or reproduced in service, you will be held responsible for costs incurred.

Disclaimer of Warranties: The warranty and remedy provided above are exclusive and in lieu of all other expressed or implied warranties, including but not limited to, the implied warranties of merchantability, fitness for a particular purpose and non-infringement. Unless stated herein, any statements or representation made by any other person or firm are void.

Remedies: Your exclusive remedy and Epson’s entire liability for a material breach of this Agreement will be limited to a refund of the price paid for the Epson products covered by this Agreement. Any action for breach of warranty must be brought within 3 months of the expiration date of the warranty. Epson is not liable for performance delays or for nonperformance due to causes beyond its reasonable control. Except as provided in this Agreement, neither Epson nor its affiliates shall be liable for any injury, loss, inconvenience, or damage, including direct, special, incidental or consequential damages, including lost profits, cost of substitute equipment, downtime, claims of third parties, or injury to property, resulting from the use or inability to use the Epson products, whether resulting from a breach of warranty or any other legal theory. Some jurisdictions do not allow limits on warranties or remedies for breach in certain transactions. In such jurisdictions, the limits in this paragraph and the preceding paragraph may not apply.

In Canada, warranties include both warranties and conditions.

Arbitration, Governing Laws: Any disputes arising out of this Agreement will be settled by arbitration, before a single arbitrator in Los Angeles, California, in accordance with the commercial Arbitration Rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. This Agreement shall be construed in accordance with the laws of the State of California, except this arbitration clause which shall be construed in accordance with the Federal Arbitration Act.
