**Start Here**

**Read these instructions before using your product.**

1 **Unpack**
   - Note: Do not open the ink bottles until you are ready to fill the ink tanks. The ink bottles are vacuum packed to maintain reliability.
   1 Remove all protective materials from the product.
   2 Lift up the scanner unit and remove all protective materials from inside the product.
   3 Lower the scanner unit.

Caution: Do not touch the flat white cable or the ink tubes and their translucent cover.

2 **Fill ink tanks**
   - Note: This product requires careful handling of ink. Wear disposable gloves and place a sheet of paper under the ink tank when you fill or refill the ink tanks, as ink may splash. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.
   1 Open the ink tank unit cover, then remove the cap for the black ink tank and attach it to its holder.
   2 Unpack the black ink bottle.
   3 Snap the bottle tip off, then remove the bottle cap. Carefully remove the protective seal (avoid touching the ink underneath the seal), then close the bottle cap tightly.
   4 Fill the tank using all of the ink in the bottle.
   5 Carefully seal the bottle using the reverse side of the bottle tip for proper disposal.

Caution: Be sure to close the bottle cap tightly, or ink may leak.

3 **Load paper**
   - Note: This product requires careful handling of ink. Wear disposable gloves and place a sheet of paper under the ink tank when you fill or refill the ink tanks, as ink may splash. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.
   1 Make sure the product is not charging, and then pull out the paper cassette.
   2 Slide the side edge guides all the way out and set the front edge guide to the paper size you are using.
   3 Insert paper with the glossy or printable side down.
   4 Slide the side edge guides against the paper, but not too tightly.

Caution: Do not connect to your computer yet.

4 **Connect the power cord to the back of the product and to an electrical outlet.**

Caution: Do not connect to your computer yet.

5 **Turn on the product. Select your language, country, date, and time.**

Note: You can change these settings later using the product's control panel. For more information, see the online User’s Guide.

If an error message appears, turn off the product and check that no protective material has been left inside the product.

6 **Close the ink tank securely.**

7 **Repeat the previous steps for the remaining bottles.**

8 **Close the ink tank unit cover.**

9 **Connect the power cord to the back of the product and to an electrical outlet.**

Caution: Do not turn off the product, raise the scanner unit, or load paper while the product is charging or you’ll waste ink.

10 **Close the ink tank unit cover.**

11 **When the message to see the setup manual is displayed on the LCD screen, press and hold the OK button for 3 seconds.**

Note: The ink bottles included with the printer are designed for printer setup and not for resale. After some ink is used for charging, the rest is available for printing.

Caution: Do not turn off the product, raise the scanner unit, or load paper while the product is charging or you’ll waste ink.

12 **Press one of the Iniciar buttons to start charging the ink. Ink charging takes approximately 20 minutes. Ink charging is complete when the power light stops flashing.**
Read these instructions before using your product.

4 Slide the side edge guides against the paper, but not too tightly.
**Connect the fax line**

4. Connect a phone cord to a telephone wall jack and to the LINE port on your product. See the online User’s Guide for more information.

2. Press ▲ on the control panel if you want to set up the fax, or press ▼ to set it up later.

**Install software**

5. Follow the instructions on the screen to run the setup program.

OS X: Make sure you install Epson Software Updater to receive firmware and software updates for your product.

4. When you see the Select Your Connection screen, select one of the following and follow the on-screen instructions:
   - **Wireless connection**
     Make sure to set up your network name (SSID) and password.
   - **Direct USB connection**
     Make sure you have the USB cable.
   - **Wired network connection**
     Make sure you have an Ethernet cable (not included).

5. When software installation is complete, restart your computer.

**Mobile printing**

To print from a mobile device, your product must be set up for wireless printing or Wi-Fi Direct®. See the online User’s Guide for instructions.

**Any problems?**

Network setup was unsuccessful.

- For detailed instructions on setting up your product on a wireless network, see the Network Installation Guide at global.latin.epson.com/Support/L655 or global.latin.epson.com/Support/L656.

- Make sure you select the right network name (SSID). The product can only connect to a network that supports 2.4 GHz.

- If you see a firewall alert message, click Unblock or Allow to let setup continue.

- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Passwords must be entered in the correct case.

There are lines or incorrect colors in my printouts. Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.

The product’s screen is dark.

Make sure your product is turned on and press any button to wake it from sleep mode.

Setup is unable to find my product after connecting it with a USB cable.

Make sure the product is on and securely connected as shown.
