Read these instructions before using your product.

1 Unpack

- Open the ink tank unit cover, then remove the cap for the first ink tank.
- Unpack the cyan ink bottle.
- Snap the bottle tip off, then remove the bottle cap. Carefully remove the protective seal (avoid touching the ink underneath the seal), then close the bottle cap tightly.
- Fill the tank up to the upper line on the ink tank using all of the ink in the bottle.
- Carefully seal the bottle using the reverse side of the bottle tip for proper disposal.
- Replace the ink tank cap securely.

2 Fill ink tanks

- Unhook the ink tank unit.
- Unpack the cyan ink bottle.
- Snap the bottle tip off, then remove the bottle cap. Carefully remove the protective seal (avoid touching the ink underneath the seal), then close the bottle cap tightly.
- Fill the tank up to the upper line on the ink tank using all of the ink in the bottle.
- Carefully seal the bottle using the reverse side of the bottle tip for proper disposal.
- Replace the ink tank cap securely.

3 Load paper

- Make sure the product is not charging ink. Then raise the paper support.
- Slide the edge guide to the left.
- Load paper, glossy or printable side up and short edge first, against the right side of the rear paper feed slot.
- Slide the edge guide against the paper, but not too tightly.
- Connect the power cord to the back of the product and to an electrical outlet.
- Connect the power cord to the back of the product and to an electrical outlet.
- Press the power button to turn on the product. Wait for the power light and the ink light to stop flashing.
- Press and hold the ink button for 3 seconds until the power light and the ink light start to flash to begin charging the ink.
- Ink charging is complete when the green power light stops flashing.

Note: The ink bottles included with the printer are designed for printer setup and not for resale. After some ink is used for charging, the rest is available for printing.

Caution: Do not turn off the product or load paper while the product is charging or you'll waste ink.

Caution: Be sure to close the bottle cap tightly, or ink may leak.
Read these instructions before using your product.

1 Unpack

Note: Do not open the ink bottles until you are ready to fill the ink tanks. The ink bottles are vacuum packed to maintain reliability. Remove all protective materials from the product.

Caution: Do not touch the flat white cable or the ink tubes and their translucent cover.

2 Fill ink tanks

Note: This product requires careful handling of ink. Wear disposable gloves and place a sheet of paper under the ink tank unit when you fill or refill the ink tanks, as ink may splatter. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.

Caution: Keep the ink bottles out of the reach of children and do not drink the ink.

1 Unhook the ink tank unit.

2 Open the ink tank unit cover, then remove the cap for the first ink tank.

3 Unpack the cyan ink bottle.

4 Snap the bottle tip off, then remove the bottle cap. Carefully remove the protective seal (avoid touching the ink underneath the seal), then close the bottle cap tightly.

Caution: Be sure to close the bottle cap tightly, or ink may leak.

5 Fill the tank up to the upper line on the ink tank using all of the ink in the bottle.

Note: Refer to the color coded sticker on the ink tank unit cover to identify the color of each tank.

Caution: Be sure to fill each tank with the correct ink color.

6 Carefully seal the bottle using the reverse side of the bottle tip for proper disposal.

Note: Don't pull the cables.

7 Replace the ink tank cap securely.

8 Repeat the previous steps for the remaining bottles.

9 Close the ink tank unit cover.

10 Hook the ink tank unit onto the product.

11 Connect the power cord to the back of the product and to an electrical outlet.

Caution: Do not connect to your computer yet.

12 Press the power button to turn on the product. Wait for the power light and the ink light to stop flashing.

Note: If all the product lights are flashing, turn off the product and check that no protective material has been left inside the product.

13 Press and hold the ink button for 3 seconds until the power light and the ink light start to flash to begin charging the ink.

Load paper

1 Make sure the product is not charging ink. Then raise the paper support.

2 Slide the edge guide to the left.

3 Load paper, glossy or printable side up and short edge first, against the right side of the rear paper feed slot.

4 Slide the edge guide against the paper, but not too tightly.

Ink charging takes approximately 20 minutes. Ink charging is complete when the power light stops flashing.

Note: The ink bottles included with the printer are designed for printer setup and not for resale. After some ink is used for charging, the rest is available for printing.

Caution: Do not turn off the product or load paper while the product is charging or you'll waste ink.
Mobile printing

To print from a mobile device, your product must be set up for wireless printing. See the online User’s Guide for instructions.

Epson Connect™ Solutions

Epson Connect offers a variety of remote printing options for your product. Connect wirelessly from your tablet, smartphone, or computer. Print documents and photos from across the room or around the world.

latin.epson.com/connect (website available in Spanish)

Epson iPrint™ for iOS/Android™

Download the Epson iPrint app from Google Play™ or the App Store to print documents and photos from your iOS or Android device on any email-enabled Epson® printer.

Any problems?

Network setup was unsuccessful.

- For detailed instructions on setting up your product on a wireless network, see the online Network Installation Guide.
- Make sure you select the right network name (SSID). The product can only connect to a network that supports 2.4 GHz.
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Passwords must be entered in the correct case.

There are lines or incorrect colors in my printouts.

Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.

Setup is unable to find my product after connecting it with a USB cable.

Make sure the product is on and securely connected as shown:

1. Make sure your product is NOT CONNECTED to your computer.
2. Insert the product CD or download and run your product’s software package:
   global.latin.epson.com/Support/L805
3. Follow the instructions on the screen to run the setup program.
4. When you see the Select Your Connection screen, select one of the following options and follow the on-screen instructions:
   - Wireless connection
     In most cases, the software installer automatically attempts to set up your wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password.
   - Direct USB connection
     Make sure you have the USB cable ready.
5. When software installation is complete, restart your computer.

Error indicators

If you see one of the error indicators below, follow these steps to proceed.

2. Paper is jammed. Remove any jammed paper from inside the product or from the rear paper feed slot. If your paper is loaded correctly, then press the [ ] paper button.
3. Paper is out or multiple pages have fed into the rear paper feed slot. Load paper correctly in the rear paper feed slot, then press the [ ] paper button.
4. Initial ink charging may not be complete. Be sure to complete the steps in the “Fill ink tanks” section.
5. Wi-Fi connection error. Press the Wi-Fi button on the product to clear the error and try again.
6. For detailed instructions on setting up your product on a wireless network, see the online Network Installation Guide.
7. Printer error. Turn off the product. Open the printer cover before printing.

See the online User’s Guide for additional troubleshooting information.
