Quick Setup

Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Choose a location

Keep the projector level and place it at a height so its lens is even with the top or bottom of the screen and is centered horizontally. If this isn’t possible, use the lens shift feature or the keystone correction button on the projector to reposition the image (see “Adjust the image”).

In order to view 3D images correctly, RF 3D glasses must be worn within 32 feet (10 m) of the projector. Use the image below to determine the viewing distance for 3D projection (the shading represents the 3D viewing area):

See the online User’s Guide for more information on where to place your projector.

Connect video devices

For additional connection types, see the online User’s Guide.

Connect multiple video devices and use the Source buttons on the remote control to switch between them.

Using the remote control

Install the batteries as shown (two AA batteries).

To shut down the projector, press the power button on the projector or the Standby button on the remote control, then press the power button again to confirm, if necessary. Wait for cooldown to complete before unplugging the projector.

When connecting a source that requires HDCP 2.2, you must use the Optical HDMI port instead of HDMI1 or HDMI2.

If the glasses don’t automatically display 3D content, you may need to pair them with the projector. Move the glasses within 10 feet (3 m) of the projector, then press and hold the Pairing button on the 3D glasses for at least 3 seconds. The status light on the glasses will alternately flash green and red, then remain green for 10 seconds if pairing is successful.

You can also automatically convert 2D HDMI content to 3D. To enable the 2D-to-3D Conversion option, press the Menu button on the projector or remote control. Select Signal and press Enter, then select 3D Setup and press Enter. Select the Weak, Medium, or Strong setting, then press Enter.

Viewing 3D images

To view 3D content, you must first connect a 3D-compatible video device to one of the HDMI ports on your projector. You also need a pair of Epson® (part number V12H548006) or Epson-compatible RF 3D active shutter glasses.

For more information on using the remote control, see the online User’s Guide.

Adjust the image

1. Press the Pattern button on the remote control to display a test pattern.

2. To raise the image or correct a tilted image, adjust the front feet as shown below:

3. Press the Lens button on the remote control and use the ▼ and ▲ buttons to focus the image.

4. Press the Lens button on the remote control again and use the ▼ and ▲ buttons to reduce or enlarge the image.

6. If your image looks like this, you can use the buttons on the projector to correct this.

7. Press Esc to exit.
Quick Setup

Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Choose a location

Keep the projector level and place it at a height so its lens is even with the top or bottom of the screen and is centered horizontally. If this isn’t possible, use the lens shift feature or the keystone correction button on the projector to reposition the image (see “Adjust the image”).

In order to view 3D images correctly, RF 3D glasses must be worn within 32 feet (10 m) of the projector. Use the image below to determine the viewing distance for 3D projection (the shading represents the 3D viewing area):

Note: To shut down the projector, press the power button on the projector or the Standby button on the remote control, then press the button again to confirm, if necessary. Wait for cooldown to complete before unplugging the projector.

Connect video devices

For additional connection types, see the online User’s Guide.

Connect multiple video devices and use the Source buttons on the remote control to switch between them.

Using the remote control

Install the batteries as shown (two AA batteries).

The default language of the menu system is English. To select another language, press the Menu button on the projector or remote control. Select Extended and press Enter. Select Language and press Enter. Select your language and press Enter. Press the Menu button to exit the menu system.

Adjust the image

Press the Pattern button on the remote control to display a test pattern.

To raise the image or correct a tilted image, adjust the front feet as shown below:

Press the Lens button on the remote control and use the ▼ and ► buttons to reposition the image.

To view 3D content, you must first connect a 3D-compatible video device to one of the HDMI ports on your projector. You also need a pair of Epson® (part number V12H548006) or Epson-compatible RF 3D active shutter glasses.

Viewing 3D images

Note: If the glasses don’t automatically display 3D content, you may need to pair them with the projector. Move the glasses within 10 feet (3 m) of the projector, then press and hold the Pairing button on the 3D glasses for at least 3 seconds. The status light on the glasses will alternately flash green and red, then remain green for 10 seconds if pairing is successful.

For more information on using the remote control, see the online User’s Guide.
Troubleshooting

If you see a blank screen or the No signal message after turning on your video device or computer, check the following:

- Make sure the (cursor) power light on the projector is blue and not flashing.
- Press the button on the projector or one of the Source buttons on the remote control to switch to the correct image source, if necessary.
- If you’re using a Windows® laptop, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/LCD or have an icon such as [LCD]. You may have to hold down the Fn key while pressing it (such as fn + F7). Wait a moment for the display to appear.
- If you’re using a Mac laptop, open System Preferences and select Displays. Click the Arrangement tab and select the Mirror Displays checkbox.

If 3D images aren’t displaying properly, check the following:

- Press the Menu button, then select Signal > 3D Setup > 3D Display and make sure that the 3D option is selected.
- Check that your 3D glasses have not entered standby mode. Slide the power switch on the glasses to OFF position, then back to the ON position.
- Check that your video device and media are both 3D-compatible. Refer to the documentation that came with your video device for more information.

Where to get help

Manuals
For more information about using the projector, click the icons on your desktop to access the online manuals (requires an internet connection). If you don’t see icon links to the manuals, you can install them from the projector CD or go to the Epson website, as described below.

Telephone support services
If you use the Epson PrivateLine® support service, call (800) 376-7661. This service is available for the duration of your warranty period. You may also speak with a support specialist by calling (562) 276-4094 (U.S.) or (905) 709-3839 (Canada).

Support hours are 6 a.m. to 8 p.m., Pacific Time, Monday through Friday, and 7 a.m. to 4 p.m., Pacific Time, on weekends. All calls are subject to change without notice. Toll or long distance charges may apply.

Internet support
Visit www.epson.com/support (U.S.) or www.epson.ca/support (Canada) for solutions to common problems. You can download FAQs and troubleshooting advice, or e-mail Epson.

Registration
Register today to get product updates and exclusive offers. You can use the CD included with your projector or register online at www.epson.com/webreg.

Optional accessories
For a list of optional accessories, see the online User’s Guide.

You can purchase RF 3D glasses (part number V12H548006) or other accessories from an Epson authorized reseller. To find the nearest reseller, call 800-GO-EPSON (800-463-7766). Or you can purchase online at www.epsonstore.com.

Notices

Bluetooth Safety and Specifications

Contains Bluetooth module: DBUB-E207

This document provides safety instructions and describes the specifications. Read this document carefully before use to ensure your safety and product performance.

U.S.

Contains FCC ID: BIKMAE-E207

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following means:

- Reset or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Epson America, Inc. Limited Warranty

Three-Year Projector Limited Warranty and 90-Day Lamp Limited Warranty

What’s Covered: Epson America, Inc. (“Epson”) warrants to the original retail purchaser of the Epson projector product enclosed with this limited warranty statement that the product, if purchased new and operated in the United States, Canada, or Puerto Rico will be free from defects in workmanship and materials for a period of three (3) years from the date of original purchase. This limited warranty applies only to the projector and not to any other accessory, which carries a limited warranty period of ninety (90) days from the date of original purchase. For warranty service, you must provide proof of the date of original purchase.

What Epson Will Do: Corrects: If your product requires service during the limited warranty period, please call Epson at the number on the bottom of this statement and be prepared to provide the model, serial number, and date of original purchase. Epson’s service option, Epson Repair, will replace the defective unit, free of charge, for parts or labor if Epson authorizes an exchange for the defective unit. Epson ship a replacement product to you, freight prepaid, as long as you are an address in the United States, Canada, or Puerto Rico. You are responsible for securely packaging the defective unit and returning it to Epson within five (5) working days of receipt of the replacement. Epson requires a credit card number to secure the cost of the replacement product in the event that you fail to return the defective unit. If Epson authorizes repair instead of exchange, Epson will direct you to send your product to Epson or its authorized service center, where the product will be repaired and sent back to you. You are responsible for packing the product and all costs to and from the Epson authorized service center. Where warranty service involves the exchange of the product or a part, the item replaced becomes Epson property. The exchanged product or part may be reconditioned or refurbished to the Epson standard of quality. As Epson’s option, the replacement may be another model of like kind and quality. Epson’s liability for replacement of the covered product will not exceed the original retail selling price of the covered product. Exchange or replacement products or parts assume the remaining warranty period of the product covered by this limited warranty. If Epson replaces the lamp as part of the warranty service, the replacement lamp carries the limited 90-day warranty stated above.

What This Warranty Does Not Cover: This warranty covers only normal use in the United States, Canada or Puerto Rico. Excessive continual use is not considered normal use. This warranty does not cover consumables such as filters. This warranty is not transferable.

Epson is not responsible for warranty service should the Epson label or logo or the rating label or serial number be removed. Epson is not responsible for warranty service should the product fail to be properly maintained or fail to function properly as a result of misuse, abuse, improper installation, neglect, improper shipping, damage caused by disasters such as fire, flood, and lightning, improper electrical current, software problems, the use of non-Epson lamps, add-in cards or cables, interaction with non-Epson products, or service other than by Epson or an Epson Authorized Service. Postage, insurance, or shipping costs incurred in returning your Epson product for carry-in warranty service are your responsibility. If a cleared defect cannot be identified or reproduced in service, you will be held responsible for costs incurred.

Disclaimer of Warranties: The Warranty and Remedy Provided Above Are Exclusive and In Lieu of All Other Express or IMPLIED WARRANTIES INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. UNLESS STATED HEREOF, ANY WARRANTIES ARE EXPRESS OR IMPLIED OF MERCHANTABILITY OR NON-INFRINGEMENT. UNLESS STATED HEREOF, ANY WARRANTIES EXPRESSED OR IMPLIED ARE FOR A PERIOD OF NINETY DAYS FROM THE DATE OF DELIVERY. EXCEPT AS PROVIDED IN THIS WRITTEN WARRANTY, NEITHER EPSON NOR ITS AFFILIATES SHALL BE LIABLE FOR ANY DAMAGES, INCLUDING INCONVENIENCE, OR DAMAGES, INCLUDING INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO, SUBSTITUTE EQUIPMENT, DOWN TIME, COSTS OF PROCURING SUBSTITUTES FROM OTHER SOURCES, ERRORS IN SOFTWARE, OR LOSS OF DATA, WHETHER OR NOT SUCH DAMAGES WERE FORESEEABLE, ARISING OUT OF THE USE OF THE ENTEprise PRODUCTS. SOME JURISDICTIONS DO NOT ALLOW THE LIMITATION OR EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

No Action Is Required: If you have a problem with your Epson product, you should first consult the troubleshooting advice provided in this manual. If you need additional technical assistance, you can contact a technical support provider in your area. You may continue to receive warranty service from Epson even if you choose to have a technical support provider service your Epson product.

Remedies: Your exclusive remedy and Epson’s entire liability under this Agreement for a material breach of this Agreement will be limited to the refund of the price paid for the Epson product covered by this Agreement. Any action for breach of warranty must be brought within three (3) years of the expiration of the warranty. Epson is not liable for performance delays or for nonperformance due to causes beyond its reasonable control. Except as provided in this written warranty, neither Epson nor its affiliates shall be liable for any inconvenience, or damages, including, direct, special, incidental or consequential damages, including lost profit, cost of substitute equipment, downtime, loss of data, claims of third parties, including customers, or injury or property, resulting from the use or inability to use the Epson products, whether resulting from a breach of warranty or any other legal theory. Some jurisdictions do not allow limits on warranties or remedies for breach in certain cases and in such jurisdictions, the limits in this paragraph may not apply.

In Canada, warranties include both warranties and conditions.

Arbitration, Governing Law: Any disputes arising out of this Agreement will be settled by arbitration to be conducted before a single arbitrator in Los Angeles, California, in accordance with the current Arbitration Rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction therein. This Agreement shall be construed in accordance with the laws of the State of California and shall be governed by the laws of the State of California, without giving effect to the principles of conflicts of laws.

You are responsible for packing the product and all costs to and from the Epson authorized service center. In such jurisdictions, the limits in this paragraph may not apply.

You are responsible for packing the product and all costs to and from the Epson authorized service center. In such jurisdictions, the limits in this paragraph may not apply.
