3 Follow the instructions on the screen to run the setup program.

4 When you see the Select Your Connection screen, select one of the following:
   • Wireless connection
     In most cases, the software installer automatically attempts to set up your wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password.
   • Direct USB connection
     Make sure you have a USB cable (not included).

Mobile printing options

Connect wirelessly from your smartphone, tablet, or computer.

Print documents and photos from across the room or around the world:
   • Print directly from your iPhone, iPad, or iPod touch. Simply select the print option.
   • Print remotely with Epson Connect™ and Google Cloud Print™. See your online User’s Guide for instructions or learn more at www.epsonconnect.com.

Any problems?

Network setup was unsuccessful
   • Make sure you select the right network name (SSID).
   • Restart your router (turn it off and then on), then try to connect to it again.
   • The printer can only connect to a network that supports 2.4 GHz connections. If your router offers both 2.4 GHz and 5 GHz connections, make sure the 2.4 GHz network is enabled.
   • If you see a firewall alert message, click Unblock or Allow to let setup continue.
   • If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Be sure to enter your password in the correct case. Printers can toggle between upper case letters, lower case letters, numbers, and symbols.
   • There are lines or incorrect colors in my printouts
     Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.
