**Fill ink tanks**

**Notes:**
- This product requires careful handling of ink. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.
- Keep the ink bottles out of the reach of children and do not drink the ink.

1. Open the ink tank cover, then open the cap for the ink tank you are going to fill.

2. Unpack one of the ink bottles. Hold the ink bottle upright and slowly turn the bottle cap to remove it.

3. Position the top of the ink bottle along the slot in front of the filling port, then slowly stand the bottle up to insert it.

4. Wait for the ink to fill the tank. Do not squeeze the bottle. Ink flows into the tank and stops automatically when the ink is filled to the upper line.

5. When the ink tank is full, remove the ink bottle and securely close the ink tank cap. Place the remaining ink aside; you will need it later.

6. Replace the bottle cap and tighten it.

7. Repeat the previous steps for the other colors.

8. Close the ink tank cover and then the scanner unit.

**Caution:** Do not connect to your computer yet.

9. Raise the control panel, then press the power button to turn on the product.

10. Press or to select your language on the LCD screen, then press the OK button. Follow steps 11 and 12 to continue ink charging.

**Notes:**
- You can change this setting later using the product’s control panel. For more information, see the online User’s Guide.

11. When the message to see the Start Here sheet appears on the LCD screen, press the OK button. On the next screen, press and hold the help button for 3 seconds.

3. **Load paper**

   See the online User’s Guide for information about loading capacity and available paper types and sizes.
