Read these instructions before using your product.

1 Unpack

1 Remove all protective materials from the product.

Note:
- Do not open the ink bottles until you are ready to fill the ink tanks.
- The ink bottles are vacuum packed to maintain reliability.
- The CD/DVD tray is taped to the bottom of cassette 2.
- For instructions on how to replace the included replacement maintenance box, see the online User’s Guide.

2 Lift up the scanner unit. Remove all protective materials from inside the product.

Caution: Do not touch the flat white cable or the ink tubes and their translucent cover.

2 Fill ink tanks

Notes: This product requires careful handling of ink. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.

Warning: Keep the ink bottles out of the reach of children and do not drink the ink.

1 Open the ink tank cover, then open the cap for the ink tank you are going to fill.

2 Unpack one of the ink bottles. Hold the ink bottle upright and slowly turn the bottle cap to remove it.

Caution: Do not shake or squeeze the ink bottle. Do not touch the top of the ink bottle after its cap is removed.

3 Position the top of the ink bottle along the slot in front of the filling port, then slowly stand the bottle up to insert it.

Notes: Refer to the color-coded sticker to identify the color of each tank. Do not force the bottles into position; they are keyed for each color.

4 Wait for the ink to fill the tank. Do not squeeze the bottle. Ink flows into the tank and stops automatically when the ink is filled to the upper line.

Notes: If ink does not flow from the bottle, lift and reinsert the bottle.

5 When the ink tank is full, remove the ink bottle and securely close the ink tank cap. Place the ink bottle aside; you will need it later.

Notes: Replace the bottle cap and tighten it.
Follow the on-screen instructions to adjust the print quality. Press the OK button to continue.

Note: You can change these settings later using the product’s control panel. For more information, see the online User’s Guide.

To complete filling the ink tanks, repeat steps 1 through 6 using the remaining ink in the bottles.

Note: Replace the bottle cap before disposing of the bottles.

Press the OK button to proceed. Follow the on-screen instructions to reset the ink levels.

Close the ink tank cover and scanner unit.

Insert the product CD or download and run your product's software package:
www.epson.com/support/et7750 (U.S.) or www.epson.ca/support/et7750 (Canada)

Follow the instructions on the screen to run the setup program.

When you see the Select Your Connection screen, select one of the following:
• Wireless connection
  In most cases, the software installer automatically attempts to set up your wireless connection. If setup is unsuccessful, you may need to enter your network name (SSID) and password.
• Direct USB connection
  Make sure you have a USB cable (not included).
• Wired network connection
  Make sure you have an Ethernet cable (not included).

Mobile printing
Connect wirelessly from your smartphone, tablet, or computer. Print documents and photos from across the room or around the world:
• Print directly from your iOS device. Simply connect your printer and device to the same network and tap the action icon to select the print option.
• Use Epson Print Enabler (free from Google Play™) with Android™ devices (v4.4 or later). Then connect your printer and device to the same network and tap the menu icon to select the print option.
• Print remotely with Epson Connect™ and Google Cloud Print™. See your online User’s Guide for instructions or learn more at www.epson.com/connect (U.S.) or www.epson.ca/connect (Canada).

Any problems?
Network setup was unsuccessful.
• Make sure you select the right network name (SSID).
• Restart your router (turn it off and then on), then try to connect to it again.
• The printer can only connect to a network that supports 2.4 GHz connections. If your router offers both 2.4 GHz and 5 GHz connections, make sure 2.4 GHz is enabled.
• If you see a firewall alert message, click Unblock or Allow to let setup continue.
• If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Be sure to enter your password in the correct case.

There are lines or incorrect colors in my printouts.
Run a nozzle check to see if any of the print head nozzles are clogged. Then clean the print head, if necessary. See the online User’s Guide for more information.
The product's screen is dark. 
Make sure your product is turned on, and press any button to wake it from sleep mode.
Setup is unable to find my product after connecting it with a USB cable.
Make sure your product is on and securely connected as shown:
