High-performance, reliable direct-to-garment printing.

**High-quality direct-to-garment printing** — Epson® UltraChrome® DG Inks are durable, vibrant and safe, with outstanding color performance, plus equal pricing for color and White inks.

**Up to twice as fast** — newly developed print modes, including Light Garment Mode, offer consistent print quality at up to twice the speed of our previous generation 1.

**Highlight White Ink Mode** — developed exclusively for the SureColor F2100, this unique feature offers simultaneous printing of White and color inks on the color pass for greatly improved image quality, speed and efficiency.

**Fast loading for more productivity** — the easy-to-use, all-new quick-load grip pad reduces traditional hoop platen load times.

**Intuitive, easy-to-learn workflow** — improved Epson Garment Creator Software, available for macOS® and Windows®, includes powerful tools for layout and text, color management, ink control, cost estimation, plus hot folders.

**Designed exclusively for direct-to-garment printing** — an entirely purpose-built system featuring Epson’s PrecisionCore® TFP® printhead, Epson UltraChrome DG ink system and robust hardware.

**Reduced maintenance time and operational cost** — featuring a fabric wiper and an in-line cleaning cartridge, the integrated self-cleaning system allows the printer to perform daily maintenance to reduce downtime.

*Designed for use exclusively with Epson cartridges*.

ECO PASSPORT by OEKO-TEX® is a system by which textile chemical suppliers demonstrate that their product can be used in a sustainable textile production. Epson UltraChrome DG Ink is certified the ECO PASSPORT. This is an international safety standard in the textile industry. It is certified to be safe for adults and children, including babies.

*This product uses only genuine Epson-brand cartridges. Other brands of ink cartridges and ink supplies are not compatible and, even if described as compatible, may not function properly.

1 Print times based upon print engine speed only, starting when ink is applied to the garment and ending when the application of ink to the garment ceases. Computer processing, network transmission, loading and unloading of garments is not included in these times. Actual print times may vary. Testing conducted by Epson America, Inc. as of November 2017. 2 The SureColor F-Series printers are designed to be used exclusively with UltraChrome DG Inks and not with any other brands of cartridges or inks. Using Epson genuine ink is important for reliable performance and high image quality.

3 For convenient and reasonable recycling options, visit www.epson.com/recycle 4 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency. 5 Note that warranty coverage for the printhead and ink delivery system is terminated if the printer is ever used with new or refilled ink cartridges, inks, or ink delivery systems other than the UltraChrome DG system for which the printer was designed.
