IMPORTANT: Before using this product, make sure you read these instructions and the safety instructions in the online User's Guide.

1 Unpack

Note: Do not open the ink bottles until you are ready to fill the ink tanks. The ink bottles are vacuum packed to maintain reliability. Remove all protective materials from the product.

2 Fill ink tanks

Warning: Keep the ink bottles out of the reach of children and do not drink the ink.

Caution: This product requires careful handling of ink. If ink spills, wipe it off immediately with a damp towel to avoid permanent stains. If ink gets on your clothes or belongings, it may not come off.

Note:
- Epson cannot guarantee the quality or reliability of non-genuine ink.
- Use the ink bottles included with the printer to set up the product. Part of the ink will be used to charge the print head. These bottles may print fewer pages compared with replacement ink bottles.

1 Open the ink tank cover and the cap for the black ink tank.

Note: Refer to the color-coded sticker on the ink tank unit to identify the color of each tank.

2 Unpack the black (BK) ink bottle. Hold the ink bottle upright and slowly turn the bottle cap to remove it.

Caution: Do not shake or squeeze the ink bottle. Do not touch the top of the ink bottle after its cap is removed.

3 Place the top of the ink bottle on the filling port, then slowly stand the bottle upright to insert it, as shown.

Note: Do not force the bottles into position; they are keyed for each color.

4 Wait for the ink to fill the tank. Do not squeeze the bottle.

Note: Ink flows into the tank and stops automatically when the ink tank is filled to the upper line. If ink does not flow from the bottle, lift and reinsert the bottle.

5 When the ink tank is full, remove the ink bottle and securely close it with the bottle cap.

Note: Do not leave the ink bottle inserted; otherwise the bottle may be damaged or ink may leak. If any ink remains in the bottle, store the bottle upright and top off the ink tank after completing initial setup.
13 Press the start button to start ink charging.

Notes: Ink charging takes about 10 minutes. When the power light stops flashing, ink charging is complete. Once initial setup of the printer is complete, you can top off the ink tanks with any remaining ink. See the online User’s Guide for instructions.

Caution: Do not unplug or turn off the product, or open the inner cover while the product is charging or you’ll waste ink.

14 Press the OK button to proceed with initial setup.

15 Follow the on-screen instructions to adjust the print quality of your product.

Notes:

• You need to load paper before you can adjust the print quality. See “Load paper” below for details.

• Select Adjust Later if you want to adjust the print quality later. For more information, see the online User’s Guide.

3 Load paper

See the online User’s Guide for information about loading capacity, available paper types and sizes, and loading envelopes.

1 Make sure the product is not charging ink. Open the feeder guard then raise the paper support and tilt it backwards slightly.

2 Slide the edge guides all the way out.

3 Load paper, glossy or printable side up and short edge first, in the middle of the rear paper feed slot.

Notes: Make sure the paper is under the mark inside the edge guides.
Mobile and voice-activated printing

- Print directly from your iOS device. Simply connect your printer and device to the same network and tap the action icon to select the print option.
- Print directly from your Android™ (v4.4 or later) device*. Simply connect your printer and device to the same network and tap the menu icon to select the print option.
- Print from wherever you are, next to your printer or remotely, with Epson Connect™ and Google Cloud Print™. Learn more at www.epson.com/connect (U.S.) or www.epson.ca/connect (Canada).
- Use voice-activated assistants to print a variety of creative and everyday items from your Epson product. Simply add your product to an Epson Connect account, then link the account to a voice-activated assistant. See www.epson.com/voice (U.S.) or www.epson.ca/voice (Canada) for more information.

* May require the Epson Print Enabler or Mopria Print Service app from Google Play™.

Any problems?

Network setup was unsuccessful
- Make sure you select the right network name (SSID).
- Restart your router (turn it off and then on), then try to connect to it again.
- The printer can only connect to a network that supports 2.4 GHz connections. If your router offers both 2.4 GHz and 5 GHz connections, make sure 2.4 GHz is enabled.
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. Be sure to enter your password in the correct case.

There are lines or incorrect colors in my printouts.
- Run a nozzle check to see if there are any clogged nozzles. Then clean the print head, if necessary. See the online User's Guide for more information.

The product's screen is dark.
- Make sure your product is turned on, and press any button to wake it from sleep mode.

Setup is unable to find my product after connecting it with a USB cable.
- Make sure your product is on and securely connected as shown.
Any questions?

User's Guide
Windows: Click the icon on your desktop or Apps screen to access the online User's Guide.
Mac: Click the icon in Applications/Epson Software/Guide to access the online User's Guide.

If you don’t have a User's Guide icon, go to the Epson website, as described below.
