Required Maintenance

There is no time for downtime when running your business.

Clean machines run better. When enough debris gets into the various components, wear can be accelerated, and output is negatively impacted. As the debris builds over time, it can impede the machine's performance and reduce reliability.

It is the customer's responsibility to conduct maintenance on time, as outlined below, to keep their printer up and running.

User Maintenance Schedule and Steps

Maintenance Frequency	Customer Steps
Daily	<ol style="list-style-type: none"> 1. Agitate White Ink Cartridges¹ 2. Nozzle Check¹ 3. Printhead Cleaning Cycles
Weekly	<ol style="list-style-type: none"> 1. Suction Cap Cleaning 2. Clean Around in Printhead
Monthly	<ol style="list-style-type: none"> 1. Agitate Color Ink Cartridges¹ 2. Check for New Firmware/Software¹ 3. Check Flushing Pads and Air Filters¹
As Needed	<ol style="list-style-type: none"> 1. Replace Head Cleaning Set¹ 2. Replace Anti-Dry Cap Tops¹ 3. Replace Air Filters¹

Please refer to product's Operator Maintenance, User's Guide, User Self Service Guide for detailed maintenance requirements.

User maintenance is required. User maintenance is not included as part of the Extended Service Plans. Create a maintenance schedule, update maintenance records, and designate a regular maintenance employee to ensure your printer's productivity.

Customer Responsibilities

Customer is responsible for sourcing maintenance equipment, which includes the following approved parts:

- Cleaning cloth (Product code: C13S210050)

¹ Maintenance videos do not cover these steps. Please refer to product's Operator Maintenance, User's Guide, and User Self Service Guide for more information.
