**Load Paper**

PictureMate comes with genuine Epson® glossy photo paper made especially for printing lab quality photos.

**Caution:** Don’t load or print on plain paper; this may damage PictureMate.

1. Move the handle to the back and open the paper support, if necessary.

2. Press the corner of the output tray to open it.

3. Slide the edge guides outward.

4. Load up to 20 sheets at a time. Fan the sheets to slightly separate them.

5. Place your paper into the slot between the edge guides with the glossy side up. Slide the edge guides inward slightly.

6. Raise the photo viewer screen.

**Caution:** To avoid damaging your PictureMate, keep it out of the sun and don’t leave it in your car or other location where it can get too hot or too cold.

**Insert a Memory Card**

1. Remove the memory card containing photos from your digital camera.

2. Insert your memory card into the correct slot on PictureMate.

3. Push the card in until it stops (it won’t go in all the way). The memory card light flashes and PictureMate tells you how many photos are on the card.

**Note:** Insert just one card at a time. PictureMate will not read multiple cards at once.

**Print Your Photos**

PictureMate’s photo viewer screen makes it easy to select the photos you want to print and choose a layout.

**Select Some Photos**

1. Press  or  to view your photos.

2. Press OK to select a photo for printing.

3. To print more than one copy, press  to increase the number. Press  to decrease it. Then press OK.

4. To select more photos, press  or  to view them and press OK to select one. Repeat step 3 to select more copies, if necessary.

5. Press  and use  or  to review your selected photos. Then press  again to print.

**Select a Layout**

1. Press the Menu button.

2. Press OK to select Basic Print Settings.

3. Press OK to select Layout.

4. Press  or  to select the layout you want, then press OK.
