RE: MSDS for Dot Matrix Printer Ribbons

Thank you for your request regarding **EPSON** Dot Matrix Printer Ribbons.

Material Safety Data Sheets ("MSDS") are a component of the Hazardous Communications Standard (HCS), promulgated by the Occupational Safety & Health Administration, known as OSHA. An MSDS is not required under the HCS requirements for Dot Matrix Printer Ribbons because they fall under an exemption therein for "articles." The article exemption is a common one which also applies to many other everyday office supplies. Therefore, Epson does not maintain MSDS for Dot Matrix Printer Ribbons.

Please contact the MSDS department at fax number 562-997-5799 if you have any further questions.

Sincerely yours,

MSDS Coordinator
Epson America, Inc.
