Read these instructions before using your product.

**1 Unpack**

Caution: Do not open ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability. Remove all protective materials.

**2 Turn on and adjust**

1. Raise the paper support, then connect the power cord to the back of the printer and to an electrical outlet.

Caution: Do not connect to your computer yet.

2. Raise the control panel, then press the power button.

If you want to lower the control panel, squeeze the release bar underneath.

Caution: Do not lower the control panel without first squeezing the release bar underneath or you may damage the product.

**3 Select language**

To select English as your language, press OK.

If you want to change the language, press ▲ or ▼ to select it, then press OK.

Note: You can change the language using the product’s control panel. For more information, see the online User’s Guide.

**4 Install ink cartridges**

Note: Don’t load paper yet.

1. Lift up the scanner unit.

2. Shake the ink cartridges gently 4 or 5 times, then unpack them.

3. Remove only the yellow tape from each cartridge.

Caution: Don’t remove any other seals or the cartridges may leak.

4. Insert the cartridges in the holder for each color, and press each cartridge down until it clicks.

5. Lower the scanner unit.

6. Press OK to prime the ink delivery system. Priming takes about 4 minutes.

Note: Your printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer.

Caution: Don’t turn off the printer while it is priming or you’ll waste ink.

7. When you see this menu on your product’s LCD screen, do not press the OK button yet. Continue with the instructions in the following sections to load paper into your product and install software.

**5 Load paper**

1. Flip the feeder guard forward.

2. Raise the paper support, if necessary. Then pull up the extension and tilt it back slightly.

3. Pull out the output tray, then raise the paper stopper.

4. Slide the edge guide to the left.

5. Load paper against the right edge guide and behind the tab, with the printable side faceup.

8½ × 11 inch (216 × 279 mm)

4 × 6 inch (102 × 152 mm)

Note: Don’t load the paper sideways; always load it short edge first.

6. Slide the edge guide over, against the left edge of the paper.

7. Flip the feeder guard back.

Caution: Don’t load paper sideways; always load it short edge first.

8. Press OK to prime the ink delivery system. Priming takes about 4 minutes.

Note: Your printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer.

Caution: Don’t turn off the printer while it is priming or you’ll waste ink.

6 Slide the edge guide over, against the left edge of the paper.

7 Flip the feeder guard back.

Caution: Do not load the paper sideways; always load it short edge first.
6 Install software

Note: If your computer does not have a CD/DVD drive, you can download the software from the Epson website. (For more information, see “Epson technical support”).

Caution: Be sure to close your other programs, including any screen savers and virus protection software, before beginning this software installation.

1. Make sure the printer is NOT CONNECTED to your computer.

2. Insert the product CD.

3. Windows: If you see the AutoPlay window, click Run Setup.exe. If you see the User Account Control screen, click Yes or Continue.

4. Mac OS X: Double-click the Epson icon, if necessary.

5. Click Install (Windows) or Continue (Mac OS X) and follow the instructions on your computer screen.

Connection options

Wireless connection

You must install the software on every computer from which you want to print. For the first installation, we recommend using a USB cable (not included) to simplify wireless setup. After the printer is connected to the network, you will be prompted to remove the cable.

If you’re using Mac OS X 10.6 or 10.7, and you don’t have a USB cable, you will need to use the buttons on the printer to select wireless settings.

Follow the instructions on your computer screen during software installation; they will explain how to connect the printer wirelessly this way.

Make sure you know your network name (SSID) and network password:
- Network name
- Network password

If you don’t have this information, contact the person who set up your network.

Direct USB connection

Make sure you have a USB cable (not included).

Any problems?

If you experience problems during setup, see below:

Network setup was unsuccessful.
- Make sure you select the right network name.
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. If it has uppercase (ABC) or lowercase (abc) letters, make sure you enter them correctly.
