Print real photos and laser sharp text

- **Fast photo printing**

Snapshots print in under 90 seconds
Direct camera-to-printer printing

- **Flexible print output**

Prints up to 44" panoramas
No special papers or photo inks required

Here's an eye-catching advance for families and enthusiasts that want the very best Photo Quality: the new EPSON Stylus Photo 700 ink jet printer. It's not only a fast photo printer, it gives families and home photo enthusiasts the ability to print real photos at home - photos that look just like your original prints. Put this together with laser sharp text and you've got the perfect tool for creating reports, greeting cards, calendars and more. And best of all, this printer is available at a price almost anyone can afford.

How'd we do it? By combining several technologies that take it to an incredible new quality level. Epson's exclusive 1440 dpi resolution and enhanced Super MicroDot™ technology bring out every detail in your images, while 6-color printing ensures that every image is as smooth as those you get from the lab. And Epson's Micro Piezo™ print head ensures clean, consistent printing on all your photos and documents, no matter what type of paper you use. With the EPSON Stylus Photo 700, everything you do will always look its very best.

It doesn't stop there, either. The EPSON Stylus Photo 700 includes the Digital Photo Lab™ software suite, giving you the ultimate photo project package for editing and organizing your photos, sharing photos on the Internet, creating personalized calendars or even stunning panoramic images. Combine the EPSON Stylus Photo 700 with the Epson PhotoPC® 600 digital camera and you get direct camera-to-printer printing - no computer required! It's the perfect camera-to-printer combination.

The new EPSON Stylus Photo 700 ink jet printer. It's the first printer that brings home the best Photo Quality images and laser sharp text.
