1. **Remove everything from the box.**

2. **Remove all the blue tape and packing materials inside and around the printer.**

3. **Unpack**

4. **Attach the Paper Support**

5. **Connect the Printer**

6. **Install Ink Cartridges**

7. **Turn On the Printer**

---

**Unpack**

- Remove everything from the box.
- Remove all the blue tape and packing materials inside and around the printer.

**Attach the Paper Support**

- Unpack the paper support before mobile and insert it into the slots above the sheet feeder.

**Turn Over**

- Insert the paper support into its slots above the sheet feeder. (To install the roll paper holders and automatic roll paper cutter and basket, see your Printer Basics book.)

**Print on the Printer**

- Place the four main components (ink cartridges) into the printer and install them in their slots with the green part facing the back.
- Push each one down until it clicks into place.
- Close the cartridge cover and printer cover.
- Press the ink button.

**Install Ink Cartridges**

- Open the output tray and the printer cover. Then open the cartridge cover and remove the protective sheet.
- Remove the ink cartridges from their packages. Don’t remove or tear the blue labels from their sides.
- Slide each cartridge individually into its slot with the green part facing the back. Then push each one down until it clicks into place.
- Close the cartridge cover and printer cover.
- Press the ink button. The green power and red ink lights flash as your printer charges ink for about 1 1/2 minutes.

**Warning:** Never use an external switch, such as a wall switch or power strip switch, to turn the printer on or off.

**Install Ink Cartridges**

- Open the output tray and the printer cover. Then open the cartridge cover and remove the protective sheet.
- Remove the ink cartridges from their packages. Don’t remove or tear the blue labels from their sides.
- Slide each cartridge individually into its slot with the green part facing the back. Then push each one down until it clicks into place.
- Close the cartridge cover and printer cover.
- Press the ink button. The green power and red ink lights flash as your printer charges ink for about 1 1/2 minutes.

**CAUTION:** Don’t turn off the printer or interrupt charging, or you’ll waste ink. If the power and ink lights don’t turn off after 5 minutes, and the printer isn’t making any noise, you can turn it off.

---

**Connect the Printer**

- USB Cable Users (PC and Mac)
  1. Shut down your computer. In Windows®, click Start and select your Shut Down or Turn Off option. Leave your computer turned off until section 7.
  2. Plug the square end of the cable into your printer’s USB port until it stops.
  3. Plug the flat end of the cable into your computer’s USB port until it stops. (You can use any open USB port.)

- Parallel Cable Users (PC only)
  1. Shut down your computer. Click Start and select your Shut Down or Turn Off option. Leave your computer turned off until section 7.
  2. Plug the end of the cable with the slotted connector into your printer’s parallel port, then secure it with the wire clips.
  3. Plug the other end of the cable into your computer’s parallel port and secure it with the screws.

**CAUTION:** Connection cables are not included with your printer. You need only one of the following cables:

- • USB cable (PC and Mac)
- • Parallel cable (PC only)

**Power on**

- Connect the power cord that came with your printer to the printer’s AC inlet.
- Plug the other end of the power cord into a grounded electrical outlet.
- Press and release the power button to turn it on.

**CAUTION:** Never use an external switch, such as a wall switch or power strip switch, to turn the printer on or off.

**Install Ink Cartridges**

- Open the output tray and the printer cover. Then open the cartridge cover and remove the protective sheet.
- Remove the ink cartridges from their packages. Don’t remove or tear the blue labels from their sides.
- Slide each cartridge individually into its slot with the green part facing the back. Then push each one down until it clicks into place.
- Close the cartridge cover and printer cover.
- Press the ink button. The green power and red ink lights flash as your printer charges ink for about 1 1/2 minutes.

**CAUTION:** Don’t turn off the printer or interrupt charging, or you’ll waste ink. If the power and ink lights don’t turn off after 5 minutes, and the printer isn’t making any noise, you can turn it off.
Put the EPSON CD-ROM in your CD-ROM or DVD drive and wait a few seconds for the CD-ROM to be recognized.

3 Restart your computer if prompted.

Make sure your printer is turned on and connected.

Windows
Follow these steps to install the software for Windows:

Windows XP
1 Take note your printer is connected and turned on.
2 Double-click the Epson Printer Information Center icon in the Start menu.
3 Click Install Printer Information Center. Agree to terms and conditions.
4 Click Install Optional Software. Follow the on-screen instructions to install the drivers for your printer.
5 When you see the license agreement, read it and follow the on-screen instructions.
6 When installation halts, click Finish. Your computer detects your printer again.
7 At the final Add New Hardware Wizard screen, click Finish.
8 Pull out the output tray extensions.
9 Select your USB port and select your printer in the printer list, make sure the printer is turned on and connected. Then select Agree.
10 Your printer is added to the printer list. You see the Print Center icon in the window that opens.

Windows 98
1 Take note your printer is connected and turned on.
2 Double-click the Epson Printer Information Center icon in the Start menu.
3 Click Install Printer Information Center. Agree to terms and conditions.
4 Click Install Optional Software. Follow the on-screen instructions to install the drivers for your printer.
5 When you see the license agreement, read it and follow the on-screen instructions.
6 When installation halts, click Finish. Your computer detects your printer again.
7 At the final Add New Hardware Wizard screen, click Finish.
8 Pull out the output tray extensions.
9 Select your USB port and select your printer in the printer list, make sure the printer is turned on and connected. Then select Agree.
