

PowerLite® 1751, 1761W, 1771W, 1776W 3LCD PROJECTORS

PowerLite 1751 shown

Powerful performance. Ultraportable design.

3x Brighter Colors¹, and reliable performance — 3LCD, 3-chip technology

One measurement of brightness is not enough — look for both high color brightness and high white brightness. These projectors have:

Color Brightness: 2600 lumens (1751 and 1761W) and 3000 lumens (1771W and 1776W)²

White Brightness: 2600 lumens (1751 and 1761W) and 3000 lumens (1771W and 1776W)²

Lightweight and travel friendly — thin as a laptop; weighs just 3.7 lb (1776W: 3.8 lb)

Remarkable clarity and detail — WXGA (1280) widescreen resolution (1761W, 1771W and 1776W) and XGA (1024 x 768) resolution (1751)

Wireless capability — included wireless LAN module and optional Quick Connect Wireless USB Key (1761W and 1771W); included wireless LAN module and Quick Connect Wireless USB Key (1776W)

PC-free presentation — convenient USB connectivity allows you to display directly from a USB memory device

PowerLite® 1751, 1761W, 1771W, 1776W 3LCD Projectors

Powerful performance. Ultraportable design.

An ultra-slim design, brilliant clarity, and versatile connectivity make the Epson® PowerLite 1751, 1761W, 1771W and 1776W each a remarkable choice in ultraportable projectors. The 1761W, 1771W and 1776W easily deliver HD video content or images from your widescreen notebook. Connecting is simple, on a Mac® or PC, with USB Plug 'n Play instant setup. And, the 1761W, 1771W and 1776W all feature wireless capability. The 1776W even includes a Quick Connect Wireless USB Key. For all four models, you can use a USB memory device and deliver your presentation PC-free or connect via HDMI. Automatic vertical keystone correction makes setup easier than ever. Plus, the PowerLite 1776W is equipped with automatic horizontal keystone correction and Auto Screen Fit. Get amazing performance, ease of use and brilliant output — all from a super-slim projector.

3x Brighter Colors with Epson¹

Brilliant image quality requires high color brightness (color light output), and Epson 3LCD projectors have 3x Brighter Colors than leading competitive projectors¹.

One brightness measurement (lumens) is not enough. A projector's specification needs to show both high color brightness and high white brightness. If color brightness is lower than white brightness, images may be dark, dull and lose detail. If not provided, be sure to ask for a projector's color brightness specification.

Get consistent, true-to-life color with Epson, whether you're projecting images with deep, dark colors or a white screen with text.

PowerLite 1751 and 1761W

PowerLite 1771W and 1776W

EPSON

High color brightness and high white brightness

COMPETITOR

Color brightness significantly lower than white brightness

Actual photograph of side by side projected images from an identical signal source. Price, resolution and white brightness are similar for both projectors (Epson 3LCD and 1-chip DLP competitor). Both projectors are set to their brightest mode.

3LCD — The #1 projection technology in the world

- All 3LCD projectors have both high color brightness and high white brightness
- All 3LCD projectors have 3 chips
- 25% lower power consumption for lower energy costs³
- 20 years of road-tested reliability

Long-life lamp

A high-efficiency lamp provides a low total cost of ownership — up to 4000 hours in Normal and ECO Mode⁴.

Brilliant widescreen performance*

- High-definition WXGA (1280 x 800) resolution and a 16:10 aspect ratio allow you to project HD widescreen content as well as content from widescreen notebooks
- Get amazing images and 30% more image area than with a standard 4:3 projector, plus the capability to display 4:3 and 16:9 content, without sacrificing image quality

XGA
(PowerLite 1751)

1024 x 768

WXGA
(PowerLite 1761W, 1771W, 1776W)

1280 x 800

HDMI for high-definition video and audio

- Delivers both audio and brilliant HD video content with just one cable
- Ensures compatibility with the latest laptop and media playing devices

The best-selling projectors in the world.

Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From long-throw projectors to ultra-short-throw and all-in-one solutions, Epson has the model made for you.

-
- Without Screen Fit
- With Screen Fit

- Wireless LAN module — present wirelessly over a network using the included 802.11 b/g/n module via a PC or Mac; transmit audio as well
- Optional Quick Connect Wireless USB Key — use the wireless key for fast, ad hoc, wireless connectivity (PC only); no need to connect over a network. In a matter of seconds, it downloads the information necessary for setup. When you're done, simply disconnect and your original settings are restored — no reconfiguration required, included with the 1776 W

Display and control content wirelessly from your iPhone®, iPad®, iPod touch®, Android tablet or smartphone with the Epson iProjection App and any nearby wireless or networked Epson projector⁵.

- Virtual projector remote control via a web browser (works when projector is connected to the network)
- Control power on/off, source, volume, page up/down functions and more from your computer
- Supports multiple web browsers (Windows® and Mac compatible)
- No special applications or software necessary

- **HDMI connectivity** — makes connecting to HDMI devices a snap
- **Added features, no added cost** — built-in closed captioning capabilities
- **Carrying case included** — for easy portability and protection when stored
- **Message broadcasting⁶** — broadcasts customized images/alerts over the network for announcements or instructions (1761W, 1771W, 1776W only)
- **Filters to protect your investment** — with easy access for hassle-free maintenance

- No more computer function keys or bulky VGA cables needed
- Just plug in a standard USB cable and instantly project
- Instantly view images on both the screen and your computer

Replacement remote control	1507996

1 Compared to leading 1-chip DLP business and education projectors based on NPD data, July 2011 through June 2012. Color brightness (color light output) measured in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions.

2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

3 Data source: ProjectorCentral.com Jan, 2012. Average of 1122 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels. Energy efficiency was measured as wattage per lumen. It was measured for both 3LCD and 1-chip projectors in each of five brightness segments. 3LCD projectors averaged less required electricity per lumen in each of the five segments.

4 Lamp life will vary depending upon model selected, environmental conditions and usage. Lamp brightness decreases over time.

5 Check your owner's manual to determine if a separate wireless LAN module must be purchased separately to enable wireless connection on your Epson projector. Epson projectors can be networked either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Not all Epson projectors are able to be networked. Availability varies depending on model.

6 Works only with Epson projectors that support presentation over the network capability.
