How do you beat 3000 lumens in a sub-16 lb projector? Meet the EPSON PowerLite 7700p, an ultra bright XGA performer that delivers stunning presentations to any audience, in any setting. This state-of-the-art projector gives you superb color saturation and sharp, vivid images. As an added benefit it operates at a remarkably quiet 38db, so your audience is sure to hear every word you say. And, with multiple input capabilities, you'll have the flexibility to present from a variety of sources. At Epson, we're committed to bringing you quality, reliability, and user-friendly solutions. You already know us for printers that deliver world class image quality. And you've probably used our innovative LCD technology in cell phones, PDAs, and camcorders. What you might not know is that we are also a world leader in LCD projector technology. So with the EPSON PowerLite 7700p, you can be confident that every image will be the best it can be.
