PowerLite® D6155W
MULTIMEDIA PROJECTOR

Widescreen performance. Dust-resistant design. Cutting-edge technology.

Featuring widescreen resolution, a robust, dust-resistant design, advanced features and networking capabilities, the PowerLite D6155W is the perfect solution for lecture halls and corporate conference rooms alike. With its unprecedented exhaust vent shutter, dust-resistant design, cable locks and long filter/lamp life, the D6155W gives you added peace of mind that your investment will last longer. This innovative projector gives you the performance you want at a price that won’t break your bottom line.

**Robust design** — dust-resistant body, 10000-hour recommended cleaning cycle¹ and up to 4000-hour lamp life² mean less down time and a low cost of ownership

**Widescreen with bright images** — true-to-life color with 3500 lumens of color and white light output³ and WXGA resolution

**Cutting-edge technology** — split-screen function; HDMI, USB, LAN and 2 VGA inputs plus optional wireless

**Advanced networking features** — remote monitor and control functions, message broadcasting and Crestron RoomView® enabled

**Additional benefits** — easy setup tools such as our innovative horizontal keystone correction and Quick Corner®, built-in closed captioning, a 5 W speaker and more
The best-selling projectors in the world.

Epson offers a wide range of high-quality projectors to meet most any need. Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultraportable projectors designed for educational settings to boardroom-ready business projectors, Epson has the model made for you.

3LCD technology — for quality and color that’s beyond amazing

- 3 chips for full-time, vibrant color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors
- Over 20 years of road-tested reliability built into every projector

Amazing color and white light output

The PowerLite D6155W delivers 3500 lumens of color light output and 3500 lumens of white light output for true-to-life, vibrant, colorful images. For today’s color-rich, multimedia content, users want a projector that delivers both optimum white and color imagery. That’s why the industry has developed a new metric called Color Light Output.

Always look for Color Light Output when choosing a projector

- For optimum image quality and performance, the projector you choose should offer equal levels of color and white light output
- When the two measurements are not identical, images do not look balanced. Whites may be brighter, making the colored areas look dull and flat
- The combination of color richness (color light output) and brightness (white light output) is as critical as the combination of bass and treble would be when purchasing audio equipment

Award-winning Faroudja DCDi Cinema for advanced video

The PowerLite D6155W features Faroudja DCDi® Cinema chipset, a video enhancement technology that produces exceptional image quality without introducing artifacts. Faroudja DCDi (Directional Correlational Deinterlacing) was developed to eliminate jaggedness, using a unique algorithm. This technology, in combination with decoding, deinterlacing and enhancement technologies, won an Emmy Award from the National Academy of Television Arts and Sciences in 2001.

How is CLO measured?

The Color Light Output spec measures Red, Green and Blue, each on a 9-point grid, applying the same method used in the ISO 21118 standard for measuring White Light Output.

Better Products for a Better Future®

Eco Features

- Energy-efficient 3LCD light engine
- Energy-efficient E-TORL® lamp
- Low power consumption of 0.3 W in Standby Mode (network communication off)
- Designed to be recycled
- RoHS compliant
- Epson America, Inc. is a SmartWay Transport Partner

PowerLite® D6155W MULTIMEDIA PROJECTOR
Robust design

Dust-resistant design to protect your investment
The PowerLite D6155W features an innovative design with a glass cover in front of the lens and dust-resistant seals around the lens levers, offering added protection against dust and reduced maintenance costs. It also features exhaust vent shutters for protection against dust or bugs when not in use. In addition, a cable cover is included to protect the cables and prevent anyone from tampering with them.

1. **World’s first vent shutter**
   Projectors typically don’t have exhaust vent shutters, so dust and bugs can enter into the projector, reducing the life of the equipment. With the D6155W’s vent shutter, your projector is protected.

2. **Cable cover**
   The D6155W protects connectors from dust and other harmful elements with its convenient cable cover. And, it provides a sleek, finished look by hiding unsightly cables.

3. **Two cable locks**
   For added security, the D6155W includes two cable locks that allow you to secure the power and HDMI cables to the projector, thereby preventing others from tampering with the equipment.

4. **Long-life E-TORL lamp**
   The innovative E-TORL lamp lasts up to 4000 hours. The special E-TORL design minimizes both light diffraction and light leakage, providing you the ultimate in lamp longevity.

5. **10000-hour high-efficiency filter**
   This high-efficiency filter was designed to protect the optical engine, lamp and electronics from small dust particles that can enter any projector. It has a recommended 10000-hour filter cleaning schedule and can capture 99.5% of dust particles, thanks to its electrostatically charged, pleated, expanded design.

6. **Enclosed lens**
   The glass cover in front of the lens protects it from being broken and from dust and other elements.

7. **Lens lever cover with seal**
   Offering added protection from harmful elements, the D6155W offers a unique design, with no gaps around the focus and zoom levers.
Cutting-edge technology

Split-screen feature
Project two images (video or still) side-by-side from two different sources simultaneously. Choose from three layout options including a 50/50% split-screen, a layout with the main image on the left and a layout with the main image on the right. You can swap the images, choose the source for the audio and even display closed captioning if the source signal includes it.

HDMI for high-definition video and audio
- HDMI digital connectivity — delivers both audio and brilliant HD video content with just one cable
- Compatible with the latest laptops, Blu-ray® and media players
- Future proof for digital content

Optional wireless connectivity with 802.11n
- Quickly connect to a wireless infrastructure (network) via the wireless LAN module
- Make wireless presentations with an adhoc (peer-to-peer) wireless connection using the Quick Connect Key

Innovative horizontal keystone correction
- New, innovative horizontal keystone allows for unique positioning of the projector
- Horizontal (± 30 degrees)keystone correction for the ultimate in positioning flexibility
- Project images from a u-shaped tabletop, without having to move the table or put a stand in the center
- When the projector is placed off center, the presenter can stand in front of the screen without blocking the image

Quick Corner
Fit the image to your screen perfectly. You can move any of the four corners of an image independently at setup, using the remote control to adjust each corner for a perfectly rectangular picture.

1.6x optical zoom
- Enlarge images 40% more than competitive models that have 1.2x optical zoom
- Maximizes space by enabling closer positioning of the projector to the screen
Advanced networking and more

Monitor and control
Easily monitor and control up to 1024 networked Epson projectors using the RJ-45 connector and included EasyMP® software
• Schedule remote power on/off functionality; saves energy, money and time
• Check the status of each projector as part of your maintenance routine
• Access maintenance alerts for connected projectors, right from your office
• Crestron RoomView enabled — monitor and control your projector with RoomView software, without the need for an A/V control box

Network presentations
• Present in up to four rooms from one networked location
• Ideal for remote meetings and distance learning applications
• Use for multi-display configurations to create a panoramic image
• Also works wirelessly with the optional wireless LAN module

PowerLite D6155W multimedia projector

Added features
• Built-in 5 W speaker — engage your audience without the cost of external speakers
• A/V Mute button — pause your presentation; it’s right at your fingertips
• Sleep Mode — set from 1 to 30 minutes to save energy when the A/V Mute Slide is closed or no signal is detected
• Direct Power On/Off — power the projector on and off with the flip of a wall switch

Dual computer inputs and a monitor output
The PowerLite D6155W features two computer VGA inputs and 3.5 mm audio connectors, which allow you to connect two computers at the same time and switch from one input to another. The monitor and audio output connectors will transfer the video and audio from the first computer, so you can connect an external monitor or a second projector and show the same image.

Built-in closed captioning
• Essential for education — helps meet ADA508 requirements for students with hearing impairments
• Helps save money — no need to pay for an additional decoder and its installation
• Effective and easy to use — easily enabled or disabled through the projector remote or menu

Message broadcasting
Broadcasts customized and scheduled alerts/messages over the network for announcements or instructions
• Sends messages to up to 1024 projectors at the same time
• Sends ordinary messages as JPEG files, so you can create slides/charts/images
• Create a slideshow by using multiple files within a folder

>>>Phase one projected to be early.

**Video I/O**

- **Display Performance**
  - NTSC: 480 line
  - PAL: 576 line
  - (depends on the observation of the multi-burst pattern)
- **Input Signal**
  - NTSC/NTSC-4.43/PAL/M-PAL/N-PAL/PAL/SECAM
  - 480/576i/480p/576p/720p/1080i/1080p

**Interface**

- **HDMI x 1**
- **Audio in:** RCA (L and R)
- **Audio out:** Mini stereo x 2
- **Power:** 5 W (mono)
- **Remote Control:** E-zoom, volume, help, menu, enter, esc and pointer functions

**Fan Noise**

- 39 dB (Normal Mode)
- 33 dB (ECO Mode)

**Remote Control**

- **Features**
  - Power, input signal selection, computer, video, A/V mute, freeze, user, ID num, auto, aspect, color mode, page up and down, E-zoom, volume, help, menu, enter, esc and pointer functions

**Operating Angle**

- **Front:** +80 degrees to +10 degrees
- **Rear:** ±30 degrees

**Effective Scanning Frequency Range**

- **Pixel Clock**
  - 13.5 MHz – 162 MHz (up to UXGA 60 Hz)
- **Horizontal**
  - 15 kHz – 92 kHz
- **Vertical**
  - 50 Hz – 85Hz

**Power Consumption**

- 185 Renfrew Drive, Markham, Ontario L3R 6G3
- 33 dB (ECO Mode)
- 39 dB (Normal Mode)

**Other**

- **Model: 700 mm**
- **Operating Distance:** 19.6 ft
- **Operate:** 12.7” x 5.2” x 4.6” (W x D x H)

**Support**

- **The Epson ConnectionSM**

1 Recommendation based on normal room conditions. Cleaning requirements may vary depending on use, environment and other conditions. Cleaning intervals may be adjusted to accommodate the environment in which the projector is used.

2 Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

3 Color and white light output will vary depending on mode selected. White light output measured using ISO 21118 standard.

4 Data source: ProjectorCentral.com, Jan. 2011. Average of 1038 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels.
