Quick Setup
Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Choose a location
Keep the projector level and place it a height so its lens is even with the top or the bottom of the screen and is centered horizontally. If this isn’t possible, use the keystone correction buttons on the projector to reposition the image (see “Adjust the image”).

In order to view 3D images correctly, RF 3D glasses must be worn within 32 feet (10 m) of the projector. Use the image below to determine the viewing distance for 3D projection (the shading represents the 3D viewing area):

See the online User's Guide for more information on where to place your projector.

Connect the projector
Connect up to 5 video devices and use the Source buttons on the projector or remote control to switch between them.

For additional connection types, see the online User’s Guide.

Adjust the image
If you don’t see an image, press the Source buttons on the remote control or the [Source] button on the projector to select the image source.

Note: If you still see a blank screen or have other display problems, see “Troubleshooting.”

1. Turn on your equipment
2. Turn on your video source.
3. Plug in the projector.
4. Turn on the power switch on the back of the projector. The power button on the projector turns blue.
5. Press the [Source] button on the projector or the On button on the remote control. The power light flashes blue, and then stays on.
6. Your projector automatically adjusts images that look like □ or □, but if necessary you can press the □ or □ buttons on the projector to correct this.

Note: To shut down the projector, press the power button on the projector twice or the Standby button on the remote control, then unplug it. You don’t have to wait for the projector to cool down.

Viewing 3D images
To view 3D content, you must first connect a 3D-compatible video device to one of the HDMI ports on your projector. You will also need a pair of EPSON or EPSON-compatible RF 3D active shutter glasses.

1. Turn on and begin playback on the 3D-compatible video device.
2. Press the [] button on the projector remote control, if necessary.
3. Slide the power switch on your 3D glasses to the On position.

Note: If the glasses don’t automatically display 3D content, you may need to pair them with the projector. Move the glasses within 10 feet (3 m) of the projector, then press and hold the Pairing button on the 3D glasses for at least 3 seconds. The status light on the glasses will alternately flash green and red, then remain green for 10 seconds if pairing is successful.

You can also automatically convert 2D HDMI content to 3D. To enable the 2D- to-3D Conversion option, press the [Menu] button on the projector or remote control. Select Signal and press Enter, then select 3D Setup and press Enter. Select 2D-to-3D Conversion and press Enter. Select the Weak, Medium, or Strong setting, then press Enter.

See the online User’s Guide for more information on adjusting 3D images.

Troubleshooting
If you see a blank screen or the No signal message after turning on your video device or computer, check the following:

• Make sure the power light on the projector is blue and not flashing.
• Press the Source buttons on the remote control or the [Source] button on the projector to switch to the correct image source, if necessary.
• If you’re using a Windows® laptop, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/LCD or have an icon such as ☐. You may have to hold down the Fn key while pressing it (such as Fn + F7). Wait a moment for the display to appear.
• If you’re using a Mac laptop, open System Preferences and select Displays. Select the VGA Display or Color LCD option if necessary, then click the Arrange or Arrange tab, and select the Mirror Displays checkbox.

For more information on using the remote control, see the online User’s Guide.
Quick Setup

Before using the projector, make sure you read the safety instructions in the online User’s Guide.

Choose a location

Keep the projector level and place it at a height so its lens is even with the top or the bottom of the screen and is centered horizontally. If this isn’t possible, use the keystone correction buttons on the projector to reposition the image (see “Adjust the image”).

In order to view 3D images correctly, RF 3D glasses must be worn within 32 feet (10 m) of the projector. Use the image below to determine the viewing distance for 3D projection (the shading represents the 3D viewing area):

See the online User’s Guide for more information on where to place your projector.

Connect the projector

Connect up to 5 video devices and use the Source buttons on the projector or remote control to switch between them.

For additional connection types, see the online User’s Guide.

Adjust the image

1. If you don’t see an image, press the Source buttons on the remote control or the Source button on the projector to select the image source.

   Example: If you still see a blank screen or have other display problems, see “Troubleshooting.”

2. Turn the horizontal and vertical lens shift dials to adjust the image position and center it between the top and bottom of the screen.

3. To raise the image, adjust the front feet as shown below.

Turn on your equipment

1. Turn on your video source.

   Example: Turn on your video source.

2. Plug in the projector.

3. Turn on the power switch on the back of the projector.

4. Press the power button on the projector or the On button on the remote control. The power light flashes blue, and then stays on.

   Example: Press the power button on the projector or in the remote control to switch between them.

   Example: Press the power button on the projector or remote control to switch between them.

   Example: Connect up to 5 video devices and use the Source buttons on the projector to reposition the image.

5. Turn the focus ring to sharpen the image.

   Example: Turn the focus ring to sharpen the image.

6. Your projector automatically adjusts images that look like or , but if necessary you can press the or buttons on the projector to correct this.

Viewing 3D images

To view 3D content, you must first connect a 3D-compatible video device to one of the HDMI ports on your projector. You will also need a pair of EPSON or EPSON-compatible RF 3D active shutter glasses.

1. Turn on and begin playback on the 3D-compatible video device.

2. Press the button on the projector remote control, if necessary.

3. Slide the power switch on your 3D glasses to the position.

   Example: For more information on using the remote control, see the online User’s Guide.

   Example: If you still see a blank screen or have other display problems, see the online User’s Guide.

   Example: If you see a blank screen or the message after turning on your video device or computer, check the following.

   Example: If you’re using a Windows® laptop, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/LCD or have an icon such as . You may have to hold down the Fn key while pressing it (such as Fn + F7). Wait a moment for the display to appear.

   Example: If you’re using a Mac laptop, open System Preferences and select Displays. Select the VGA Display or Color LCD option if necessary, then click the Arrange or Arrange tab, and select the Mirror Displays checkbox.

Troubleshooting

If you see a blank screen or No signal message after turning on your video device or computer, check the following.

- Make sure the power light on the projector is blue and not flashing.

- Press the Source buttons on the remote control or the button on the projector to switch to the correct image source, if necessary.

- If you’re using a Windows® laptop, press the function key on your keyboard that lets you display on an external monitor. It may be labeled CRT/LCD or have an icon such as . You may have to hold down the Fn key while pressing it (such as Fn + F7). Wait a moment for the display to appear.

- If you’re using a Mac laptop, open System Preferences and select Displays. Select the VGA Display or Color LCD option if necessary, then click the Arrange or Arrange tab, and select the Mirror Displays checkbox.

- Make sure the batteries are installed as shown (two AA batteries).

   Example: Turn projector on

   Example: Turn projector off

   Example: Choose which source to display.

   Example: Navigate projector menus

   Example: Access projector menus

   Example: Turn off projector display

   Example: For more information on using the remote control, see the online User’s Guide.
Where to get help

Manual
For more information about using the projector, click the icon on your desktop to access the online manual (requires an Internet connection). If you don’t have a User’s Guide icon, you can install it from the projector CD or go to the Epson website, as described below.

Telephone support services
To use the EPSON PrivateLine® support service, call (800) 637-7661. This service is available 6 to 8 a.m., Pacific Time, Monday through Friday, for the duration of your warranty period.

You may also speak with a support specialist by calling (562) 276-4394 (U.S. or (905) 709-3839 (Canada). 6 to 8 a.m., Pacific Time, Monday through Friday, and 7 to 8 a.m., Pacific Time, Saturday.

Days and hours of support are subject to change without notice. Stand or long distance charges may apply.

Internet support
Visit www.epson.com/support (U.S.) or www.epson.ca/support (Canada) for solutions to common problems. You can download utilities and documentation, get FAQs and troubleshooting advice, or e-mail Epson.

Registration
Register today to get product updates, special promotions, and customer-only offers. You can use the CD included with your projector or register online at www.epson.com/registration.

Optional accessories
For a list of optional accessories, see the online User’s Guide.

You can purchase RF glasses or other accessories from an Epson authorized reseller. To find the nearest reseller, call (800) 662-EPSON (800-662-3776). Or you can purchase online at www.epsonstore.com (U.S. sales) or www.epson.ca (Canadian sales).

Declaration of Conformity
According to 47CFR, Part 2 and 15, Class B Personal Computers and Peripherals; and/or CPU Boards and Power Supplies used with Class B Personal Computers
We: Epson America, Inc. Located at: 3840 Kilroy Airport Way MS: 3-13 Long Beach, CA 90808 Tel: 562-992-5040
Declare under sole responsibility that the product identified herein, complies with 47CFR Part 2 and 15 of the FCC rules as a Class B digital device. Each product identified herein is tested and found to be compliant with the standards. Records maintained continue to reflect the equipment being produced can be expected to be within the variance accepted, due to quantity production and testing on a statistical basis as required by 47CFR 2.909. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Trade Name: EPSON
Type of Product: LCD Projector
Model: HS277A
Marketing Name: PowerLite Home Cinema 5201UB

Epson America, Inc. Limited Warranty
Two-Year Projector Limited Warranty, 90-Day Lamp Limited Warranty and 1-Year 3D Glasses Limited Warranty

What is Covered: Epson America, Inc. ("Epson") warrants the original retail purchaser of the Epson projector product enclosed with this limited warranty statement to be free from defects in workmanship and materials for a period of two (2) years from the date of original purchase. For purposes of this warranty Epson applies only to the projector lamp and not to the projector lamp or 3D glasses. The projector lamp carries a limited warranty period of ninety (90) days from the date of original purchase. The 3D glasses carry a limited warranty period of one (1) year from the date of original purchase. For warranty service, you must provide proof of the date of original purchase.

What Epson Will Do To Correct Problems: If your product requires service during the limited warranty period, please call Epson at the number on the bottom of this statement and be prepared to provide the model, serial number, and date of original purchase. Epson will, at its option, repair or replace the defective unit, without charge for parts or labor. If Epson authorizes an exchange for the defective projector, Epson will ship a replacement projector to you, freight prepaid, so long as you use an address in the United States, Canada, or Puerto Rico. You are responsible for securely packaging the defective unit and returning it to Epson within five (5) working days of receipt of the replacement. Epson requires a debit or a credit card number to secure the cost of a replacement projector in the event that you fail to return the defective one. When Epson authorizes an exchange for defective 3D glasses, you must first send the defective glasses to Epson. Once we have received your defective glasses Epson will ship a replacement product to you, freight prepaid, so long as you use an address in the United States, Canada, or Puerto Rico. Epson authorizes repair instead of exchange, Epson will direct you to send your product to Epson or its authorized service center, where the product will be repaired and sent back to you. You are responsible for packing the product and for all costs and to from the Epson authorized service center.
When warranty service involves the exchange of the product or of a part, the recipient of the exchange equipment will be responsible for any costs associated with the transportation of the product to Epson. This warranty does not cover consumables such as filters. This warranty is not transferable. Epson is not responsible for warranty service should the EPSON label or logo or the rating label or serial number be removed. Epson is not responsible for warranty service should the product fail to be properly maintained or fail to function properly as a result of misuse, abuse, improper installation, neglect, improper shipping, damage caused by disasters such as fire, flood, and lightning, improper electrical current, software problems, interaction with non-Epson products, or service other than by Epson or an Epson Authorized Service Provider. Postage, insurance, or shipping costs incurred in presenting your Epson product for carry-in warranty service are your responsibility. Epson will pay for all freight charges if you choose to send your unit to Epson for repair. If a claimed defect cannot be identified or reproduced in service, you will be held responsible for costs incurred.

The Warranty and Remedy Provided Above are Exclusive and in Lieu of All Other Express or Implied Warranties Including, but Not Limited to, the Implied WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some Laws Do Not Allow the Exclusion of IMPLIED WARRANTIES. If These Laws Apply, Then All EXPRESS and IMPLIED WARRANTIES ARE LIMITED TO THE WARRANTY PERIOD IDENTIFIED ABOVE. UNLESS STATED HEREIN, ANY STATEMENTS OR REPRESENTATIONS MADE BY ANY OTHER PERSON OR FIRM ARE VOID. IN THE EVENT THE REMEDIES ABOVE FAIL, EPSON’S ENTIRE LIABILITY SHALL BE LIMITED TO A REFUND OF THE PRICE PAID FOR THE EPSON PRODUCT COVERED BY THIS LIMITED WARRANTY. EXCEPT AS PROVIDED IN THIS WRITTEN WARRANTY, NEITHER EPSON AMERICA, INC. NOR ITS AFFILIATES SHALL BE LIABLE FOR ANY LOSS, INCONVENIENCE, OR DAMAGE, INCLUDING, DIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, RESULTING FROM THE USE OR INABILITY TO USE THE EPSON PRODUCT, WHETHER RESULTING FROM BREACH OF WARRANTY OR ANY OTHER LEGAL THEORY.

In Canada, warranties include both warranties and conditions.

Some jurisdictions do not allow limitations on how long an implied warranty lasts and some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations and exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which vary from jurisdiction to jurisdiction.

To find the Epson Authorized Reseller nearest you, please visit our website at: www.epson.com.

To find the Epson Customer Care Center nearest you, please visit www.epson.com/support.

To contact the EPSON Connection®, please call (800) 637-7661 or (562) 276-4394 in the U.S. and (901) 709-3839 in Canada write to Epson America, Inc., P.O. Box 93012, Long Beach, CA 90809-3012.

What This Warranty Does Not Cover: This warranty covers only normal use in the United States, Canada or Puerto Rico. Twenty-four hours per day or other excessive continual use is not considered normal use. This warranty does not cover consumables such as filters. This warranty is not transferrable. Epson is not responsible for warranty service should the EPSON label or logo or the rating label or serial number be removed. Epson is not responsible for warranty service should the product fail to be properly maintained or fail to function properly as a result of misuse, abuse, improper installation, neglect, improper shipping, damage caused by disasters such as fire, flood, and lightning, improper electrical current, software problems, interaction with non-Epson products, or service other than by Epson or an Epson Authorized Service Provider. Postage, insurance, or shipping costs incurred in presenting your Epson product for carry-in warranty service are your responsibility. Epson will pay for all freight charges if you choose to send your unit to Epson for repair. If a claimed defect cannot be identified or reproduced in service, you will be held responsible for costs incurred.
