# EPSON<sup>®</sup> ColorWorks<sup>™</sup> C831 Wide Color Label Printer

- Ideal for GHS large format drum and chemical labeling
- Industrial-strength MicroPiezo<sup>®</sup> inkjet printer with tractor feeder
- First inkjet solution that has been BS5609 certified<sup>1</sup>
- Printable area up to 8.0" x 22"
- Low TCO vs. color lasers
- Fast print speeds of up to 16.5 pages per minute<sup>2</sup>

Epson's ColorWorks C831 industrial-strength label printer with tractor feeder is designed to handle the rigors of large-volume printing with fast print speeds, affordable high-capacity ink cartridges and exceptional reliability.

# Another technology first from Epson

Epson's ColorWorks C831 breakthrough industrial-strength inkjet label printer is ideal for GHS large format drum and chemical labels. It combines all the benefits of a rugged color inkjet printer with the accuracy of an 8-pin tractor feeder and is the first inkjet solution that has been BS5609 certified.<sup>1</sup> It features print speeds up 16.5 pages/minute,<sup>2</sup> printable areas up to 8" x 22", precise label feeding to reduce jamming and high-density barcode printing, all at a lower cost than color thermal transfer or color laser printers.

# Superior ink quality and durability

Unlike dye-based inks, Epson's worldrenowned durable pigment-based inks firmly bind to media fibers, delivering outstanding stability and resistance to chemicals, water, fading and smudges. And the ColorWorks C831, with its durable inks, is certified to print on BS5609<sup>1</sup> approved labels, in addition to a wide variety of continuous paper and labels.

# **Exceptional reliability**

Designed for commercial environments the ColorWorks C831 is built to last. It is dust and water resistant, can withstand weights up to 44 lbs on its top and is virtually maintenance free. The print head is designed to be permanent, improving reliability and avoiding the need for frequent head replacement as with some competitive printers.

# Easy to use and maintain

The ColorWorks C831 features easy access to all functions including ink replacement, an intuitive control panel, auto paper loading and more. And with its automatic paper release, paper jams are handled in no time. All of these features add up to increased productivity and reduced downtime to keep your business running.

# Backed by the leader

The ColorWorks C831 wide color label printer delivers the quality and reliability that Epson printers are known for and is backed by Epson's industry-leading service and support programs.

### General information

Overall dimensions Weight	18.3 x 18.3 x 8.8" (W x D x H) Approx. 26 lbs (12.2kg) — without ink
Power consumption Printing	Approx. 20 W (mean, ISO/IEC 10561 letter)
Standby	Approx. 2.3 W (sleep mode)
Rated voltage	AC 110-240 VAC
Rated frequency	50–60 Hz
Acoustic noise	Silent feed on: approx. 48dB (A) Silient feed off: approx. 50dB (A)
EMC standards	CNS13438 Class A
Safety standards	BSMI (CN14336), Green Mark Program compliant, UL/C-UL, NOM, Argentine, CE, EN60950
Operating system	Microsoft® Windows® XP 32-bit (SP3)/64-bit (SP2), Vista® 32 -bit/64-bit (SP2), Windows 7 32-bit/64-big, Windows Server 2003, Windows Server 2008

## What's in the box

ColorWorks C831 printer AC cord	
Ink cartridge set (CMYK)	10.01
Quick setup sheet	18.3"
Utilities/manuals CD	* 8.8"
Power switch cover

18.3

<sup>1</sup> Epson's ColorWorks C831 inkjet printer with Epson's DURABrite® pigment inks used in combination with Neenah Kimdura Poly media has been BS5609 certified.

Print speed is based on printing the suite of ISO/IEC 24734 text and graphic images on 8.5" x 11" size pages. Speed of up to 16.5 pages per minute is based on draft mode. Actual print times will vary based on systen configuration, software, and page complexity.

<sup>3</sup> The printable area is fixed relative to the left tractor starting at .51" (12.9 mm) from the left edge of the media. Right margin may be greater than .51" (12.9mm) if the media extends well past the printable area. <sup>4</sup> Plain paper.

USB

Epson America, Inc. • 3840 Kilroy Airport Way. • Long Beach, CA 90806. • [562] 290-5304 ©2013 Epson America, Inc. EPSON, DURABrite and MicroPiezo are registered trademarks and Epson Exceed Your Vision is a registered logomark of Seiko Epson Corporation. ColorWorks is a trademark of Epson America, Inc. All other trademarks are the property of their respective owners. Specifications are subject to change without notice.

<sup>5</sup> Smallest individual label is 0.5" (12.7mm). Shortest distance between perforations is 4.0" (102mm). The last 5.5" (140mm) of media at end of a stack or roll is a non-printable area. Total form length from one Top-OFForm to next. T.O.F. must be aligned to an exact 1/8th or 1/100th of an inch.

Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields will be lower with higher-density images, hot or dusty conditions, less frequent printing, or printing pre-dominantly with one color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. See www.epson.com/cartridgeinfo for more information about EPSON ink cartridges.
