

Time on KDS

About this Guide

This guide consists of one section:

- **Overview**
- **How to Configure Time on KDS** – A procedure that can be followed to configure the KDS system time.
- **Appendix** – Options for time configuration.

This guide is relevant for:

KDS FW: **v2.50 and above**

KDS Utility (Windows): **v2.5.0.0 and above**

Overview

The time is shown at the top of each KDS display and can be configured.

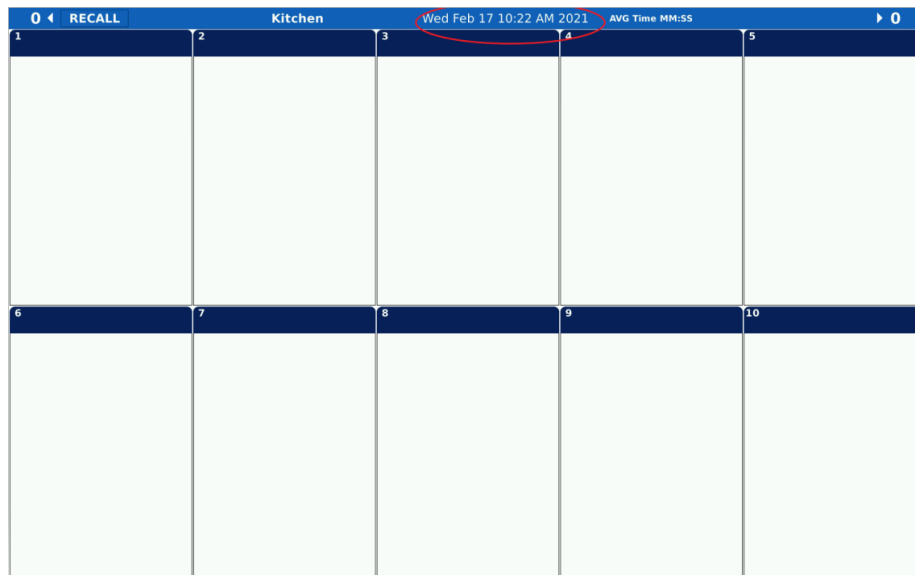

Figure 0.1 – Kitchen Display Showing the date and time

How to Configure

This procedure sets the current KDS time to that of the PC that is running the Configuration Utility.

Step 1: Configuring Time Settings

1. Select **Setup**.
2. Select **Site Wide Settings**.
3. In **Time Setting Actions**, click “Set Current KDS Time”.
4. **Apply KDS Settings**.

Appendix

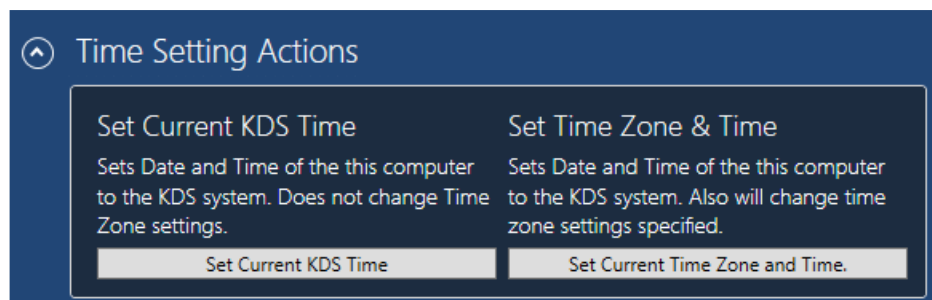

Time Settings

Time Zone: The system support time zone settings. Choose your time zone and click “Set Time & Time Zone setting” in the Main Menu. This will update the master device (If selected) to the new time zone settings and the current local time.

NTP Time Server: Specifies NTP Time Server. This setting must be applied by clicking “Set Time & Time Zone Settings” in the Main Menu.

A screenshot of a software interface titled "Time Settings" with a back arrow icon. Below the title is a dark blue box containing two input fields. The first field is labeled "Time Zone" and has a dropdown arrow. The second field is labeled "NTP Time Server" and is empty.

Time Setting Actions

A screenshot of a software interface titled "Time Setting Actions" with a back arrow icon. Below the title is a dark blue box containing two columns of text. The left column is titled "Set Current KDS Time" and describes setting the date and time to the KDS system without changing time zone settings. Below this text is a button labeled "Set Current KDS Time". The right column is titled "Set Time Zone & Time" and describes setting the date and time to the KDS system while also changing the specified time zone settings. Below this text is a button labeled "Set Current Time Zone and Time."

Set Current KDS Time: Sets the date and time for this computer to the KDS system. Does not change the time zone settings.

Set Time Zone & Time: Sets the date and time for this computer to the KDS system. It will also change the specified time zone settings.
