QB1000 LS9000 LS11000 LS12000

Release Notes

Version 3.03

Feature improvement

China Energy Efficiency Label Compliant: Standby power consumption is 0.5W or less.

Version 3.02

Feature improvement

Measures against Brute-force attacks.

If the password entered for (Remote Password, Web Control Password, Monitor Password) is incorrect when connecting to the projector using a web browser, access from the same IP address will be restricted for 2 seconds.

Version 3.01

To improve security, downgrading from V3.01 or later to V3.00 or earlier is not supported. If you try to downgrade the firmware, the projector's Lights will flash rapidly, and the downgrading will always fail.
