

**What** if every printed image could exhibit superior quality and detail, even on plain paper? And, what if every printed document or photo had the durability your customers require? With the EPSON Stylus® C82, all this is possible—and more. This high-performance ink jet provides superior plain paper printing and speeds through black text at up to 22 ppm.

Designed to deliver remarkable, long-lasting results, the printer includes 4-color EPSON DuraBrite Inks. These quick-drying inks are resistant to

water and fading, so prints stand the test of time.

Because the ink particles remain near the surface and don't bleed through, they're ideal for double-sided prints. And, the printer's separate ink cartridges give users added cost savings.

What's truly amazing about the EPSON Stylus C82 is the sharp, rich images it delivers. Through Resolution Performance Management, this powerful ink jet achieves amazing 5760 x 1440 optimized dpi. Its ultrafine 3-picoliter ink droplets deliver bold black text and vibrant colors with superior gradations and more accurate skin tone reproductions.

A champion performer, whatever the task, the EPSON Stylus C82 even offers Windows® plug-and-play installation. Variations of this model, the EPSON Stylus C82WN and C82N, offer wireless and network printing capabilities.

The EPSON Stylus C82 handles up to 150 sheets of paper, so high-volume print jobs are a breeze. And, with its user-friendly control panel, operation couldn't be easier.

Quiet and unobtrusive, this inkjet is ideal for the home or small office, with exceptional results for both photos and everyday printing.

With its sleek, contemporary design, plus USB and Parallel connectivity, the EPSON Stylus C82 is perfect for any Windows or Macintosh® system.

High-speed performance, long-lasting results.
