

EPSON®

QUICKLY AND QUIETLY IT DELIVERS YOU OUTSTANDING RESULTS.

Once you begin printing with the EPSON Stylus Color 880 ink jet, your friends and peers may never believe it was the printer responsible for the two thousand eight hundred and eighty dots per inch of astounding output you show them.

After all, no home office, school or small business printer could ever generate such bright, brilliant and sharply detailed results, could it?

This one can, and it does. The 2880 x 720 dpi EPSON Stylus Color 880 ink jet printer will have you printing desktop publishing documents, business presentations, color graphics, photos and greeting cards like you've never seen before.

This printer hurries out black text at up to 12 ppm and color at up to 9 ppm. Superfine, barely visible, 4-picoliter variable-size ink droplets give you page after page of compelling Photo Quality color graphics and crisp, clean text.

A lot of the credit goes to EPSON's Perfect Picture Printing. It equips you with award-winning Micro Piezo™ ink jet technology, smooth AcuPhoto Halftoning®, and convenient 4-color quick-drying inks that won't bleed or smudge.

Maybe best of all, it has dazzling print capability that hardly makes a sound. With its quiet print engine, the EPSON Stylus Color 880 is one of our quietest running ink jets ever.

With 2880 x 720 dpi and a package like this, the excitement around the computer store won't quiet down for a while.

EPSON Stylus® Color 880 Ink Jet Printer

FEATURES

- **2880 x 720 dpi Perfect Picture Printing**
- **Super fast print speeds**
- **Quiet print engine**
- **Creative and versatile software**
