Unpack

Caution: Do not open ink cartridge packages until you are ready to install the ink. Cartridges are vacuum packed to maintain reliability.
Remove all protective materials, including from inside the printer.

Turn on and adjust

1 Raise the paper support, then connect the power cord to the back of the printer and to an electrical outlet.
Caution: Do not connect to your computer yet.
2 Raise the control panel, then press the power button.
Caution: Do not remove any other seals or the cartridges may leak.
3 Insert the cartridges in the holder for each color, and press each cartridge down until it clicks.

Install ink cartridges

Note: Don’t load paper yet.
1 Lift up the scanner unit, and wait until the ink cartridge holder stops moving.
2 Shake the ink cartridges gently 4 or 5 times, then unpack them.
3 Remove only the yellow tape from each cartridge.
Caution: Don’t remove any other seals or the cartridges may leak.
4 Insert the cartridges in the holder for each color, and press each cartridge down until it clicks.

Load paper

1 Flip the feeder guard forward.
2 Raise the paper support, if necessary. Then pull up the extension and tilt it back slightly.
3 Pull out the output tray, then raise the paper stopper.
4 Slide the edge guide to the left.
5 Lower the scanner unit.
6 Press OK to prime the ink delivery system. Priming takes about 4 minutes.
Note: The cartridges included with the printer are designed for printer set up and not for resale. After some ink is used for priming, the rest is available for printing.
Caution: Don’t turn off the printer while it is priming or you’ll waste ink.

Load paper against the right edge guide and behind the tab line on the left edge guide, with the printable side faceup.

Note: Don’t load the paper sideways; always load it short edge first.
Read these instructions before using your product.

2. Insert the product CD.

3. Windows®: If you see the AutoPlay window, click Run Setup.exe. If you see the User Account Control screen, click Yes or Continue.

Mac OS X: Double-click the Epson icon, if necessary.

4. Click Install (Windows) or Continue (Mac OS X) and follow the instructions on your computer screen.

5. When you see the Select Your Connection screen, check the “Connection options” section on this sheet for more information.

Choose your connection. Then click Next (Windows) or Continue (Mac OS X) and follow the instructions on your computer screen.

Connection options

Wireless connection

You must install the software on every computer from which you want to print. For the first installation, we recommend using a USB cable (not included) to simplify wireless setup. After the printer is connected to the network, you will be prompted to remove the cable.

If you’re using Mac OS X 10.6 or 10.7, or you don’t have a USB cable, you will need to use the buttons on the printer to select wireless settings. Follow the instructions on your computer screen during software installation; they will explain how to connect the printer wirelessly this way.

Make sure you know your network name (SSID) and network password:

- Network name
- Network password

If you don’t have this information, contact the person who set up your network.

For more help with setting up your printer’s wireless network connection, you can view how-to-videos at epson.com/support (U.S.) or epson.ca/support (Canada).

Direct USB connection

Make sure you have a USB cable (not included).

Any problems?

If you experience problems during setup, see below:

Network setup was unsuccessful.

- Make sure you select the right network name (SSID).
- If you see a firewall alert message, click Unblock or Allow to let setup continue.
- If your network has security enabled, make sure you enter your network password (WEP key or WPA passphrase) correctly. If it has uppercase (ABC) or lowercase (abc) letters, make sure you enter them correctly.

Press or to scroll through characters. Press to switch between uppercase (ABC) and lowercase (abc), or numbers (123). Press to move to the next character, and to delete a character.

When you’re finished, press OK.

The printer’s screen is dark.

Press any button to wake your product from sleep mode.

Setup is unable to find my printer after connecting it with a USB cable.

Make sure it is securely connected as shown:
